Prohibited lot Bromogex medicine (Bromopride)

The batch contained the presence of particles in ampoules, motivating the Agency's injunction

Anvisa determined the ban on distribution, marketing and use of batch 15331 WFE of Bromogex medicine (Bromopride) - 2 ml ampoule box with 50 units valid until October 2019, manufactured by the company Wasser Farma Ltda.

The measure was motivated by the presence of particles in the batch of ampoules in question. The company should promote the collection of the existing stock of the drug on the market.
