

# Fermion's mother company Orion Corporation wins CMO leadership awards in the category of expertise

5/25/2021

Orion Corporation also won Individual Attribute Awards in Accessible Senior Management and Innovation.

Fermion offers together with Orion drug product contract manufacturing services including hormonal and non-hormonal semi-solids, liquids, cytotoxic oral solids and packaging services. Also small volume parenterals and non-cytotoxic oral solids are offered. Orion has three manufacturing sites and one packaging center for drug products. Orion capabilities together with Fermion's world-class API capabilities can offer one reliable supply chain for customers who are searching service provider for their project.

"Orion is proud to be recognized as CMO Leadership Award 2021 winner in the category of Expertise. It shows that our customers value our commitment to seek winning solutions for them. Increasing complexity in our business environment puts everyone in this industry to a continuous challenge to develop the expertise beyond the needs of yesterday. This is why this nomination is highly valued", says Marko Salo, Vice President of Fermion and Contract Manufacturing services of Orion.
