Issue

All lots are being recalled as no stability data to support affected lots' shelf life. Lot HLE0001 is out of specification for uniformity of dosage units.

What you should do

1. Verify if your product is affected.
2. Consult your healthcare provider prior to discontinuing use of the affected product(s), or for any health concerns.
3. Contact the recalling firm if you have any questions about the recall.
4. Report any health product related side effects to Health Canada.
5. Report any other health product safety complaints to Health Canada.
