

Health product recall

Dotarem Injection: Product Sterility

Last updated: 2021-11-22

Summary

Product: Dotarem Injection

Issue: Health products » Product safety

What to do: See instructions below.

Affected products

Showing 1 to 1 of 1 entries

Brand	Product Name	Market Authorization	Dosage Form	Strength	Lot
Dotarem	Dotarem Injection	DIN 02459329	Solution	Gadoterate Meglumine 376.9 mg/ml, equivalent to 0.5 mmol/ml	20GD087B0

Issue

Product sterility may be compromised in the affected lot due to the possibility of defects in the vial.

What you should do

1. Verify if your product is affected.
2. Consult your healthcare provider prior to discontinuing use of the affected product(s), or for any health concerns.
3. Contact the recalling firm if you have any questions about the recall.
4. Report any health product related side effects to Health Canada.
5. Report any other health product safety complaints to Health Canada.
