Summary

Company Announcement Date:

September 03, 2021

FDA Publish Date:

September 03, 2021

Product Type:

Drugs

Reason for Announcement:

Super potency

Company Name:

Teligent Pharma, Inc.

Brand Name:

Teligent

Product Description:

Lidocaine HCl Topical Solution 4%

Company Announcement

Buena, NJ, Teligent Pharma, Inc. is voluntarily recalling one lot of Lidocaine HCl Topical Solution 4%, 50ml in a screw cap glass bottle to the user level. The product is being recalled because the firms testing has found it to be super potent based on an Out of Specification (OOS) result obtained at the 18-month stability timepoint.

Risk Statement: Use of the super potent product would result in a higher than intended lidocaine dose above that intended. An increased lidocaine dose could lead to the development of local anesthetic systemic toxicity depending on the duration of the treatment

and the specific patient. Local anesthetic systemic toxicity can result in central nervous system reactions including excitation and/or depression and more serious signs of cardiovascular toxicity, such as bradycardia, hypotension, and even cardiovascular collapse can present very quickly. If local anesthetic systemic toxicity is not recognized and treated quickly, severe morbidity and even death can result. Adults and the elderly who are more likely to use this product as well as children of lower body weight are more likely to experience local anesthetic systemic toxicity if a higher than intended lidocaine concentration is administered. To date, Teligent Pharma, Inc. has not received any reports of adverse events related to this recall

The product is indicated for the production of topical anesthesia of accessible mucous membranes of the oral and nasal cavities and proximal portions of the digestive tract and is packaged in a 50ml glass bottle with a screw cap with the identification NDC# 52565-009-50. The affected Lidocaine HCl Topical Solution 4% lot number and expiration date are: Lot # 14218, Exp. 09/2022. The product can be identified by the following labeling: Lidocaine Hydrochloride Topical Solution USP 4% (40 mg/mL). Product was distributed at the wholesale and retail distribution levels in the US and Canada.

Teligent Pharma, Inc. is notifying its distributors via Fed-Ex and is arranging for return of all recalled products.

Consumers, and patients that have Lidocaine HCl Topical Solution 4% which is being recalled are asked to discontinue use and dispose of the product immediately.

Consumers can call 1-856.697.1441 press * to reach the medical information call center Monday through Friday, 8am – 5pm or send an e-mail to **Medical@teligent.com** (mailto:Medical@teligent.com) for any product or recall related questions.

Consumers should contact their physician or healthcare provider if they have experienced any problems that may be related to taking or using this drug product.

Adverse reactions or quality problems experienced with the use of this product may be reported to the FDA's MedWatch Adverse Event Reporting program either online, by regular mail or by fax.

- Complete and submit the report Online (/safety/medwatch-fda-safety-information-and-adverse-event-reporting-program/reporting-serious-problems-fda)
- Regular Mail or Fax: Download form (/safety/medical-product-safety-information/medwatch-forms-fda-safety-reporting) or call 1- 800-332-1088 to request a reporting form, then complete and return to the address on the pre-addressed form, or submit by fax to 1-800-FDA-0178

This recall is being conducted with the knowledge of the U.S. Food and Drug Administration.
