formulations

WHY AMARIN?

We are a dedicated partner for your development projects, serious and reliable, confirmed by over 30 years of remarkable experience.

VALUES

Professionalism

We are pharma professionals, experts dedicated to the development of efficient pharmaceutical products for more than 30 years. Highly trained to carry out our work in an ethical, serious and dedicated way.

Transparency

This value runs through everything we do, from our work developing or manufacturing our products, to the relationship with our customers, partners and allies. Transparency and trust have always been vital to the success and development of our business relationships.

Commitment

We keep our word, we are responsible and committed to our goals, clients and the community. Our history and clients guarantee our reliability.

Flexibility

As a niche player, flexibility is a key value that characterizes us since we want to offer our clients the adaptability they need for the development of their projects.

HISTORY & MILESTONES

R&D activities

are carried out according to international standards -cGMP, cGLP and cGCP-; reinforced by 30 years of experience in the controlled release field.

Manufacturing Activities

are achieved in a facility of about 1200 m2, located in Buenos Aires. These facilities comprise: Manufacturing Plant, Pharmaceutical Development, Analytical Development, QA/QC laboratory.

Qualified Staff

including Pharmacists, Chemists, Statisticians, MDs and university students, is our distinctive mark to ensure expertise in the transdermal niche market.

Multi-feature Patents

filed in major and highly-regulated markets around the world (including US and Europe).

Partner with us

We offer expertise and experience, and at the same time, flexibility and the ability to adapt to customer needs.

You know what your market and business need. Amarin is the right option to partner with, because as a medium-size player, we offer the flexibility you need to carry out your development projects, while providing professional and specialized expertise in the transdermal niche market.

OUR CLIENTS

“

I have been collaborating with Amarin Technologies, S.A. for approximately six years and have visited its site in Buenos Aires, Argentina. I have found the leadership and team to be professional, knowledgeable, committed, flexible and extremely reliable. They have proven that they are capable of developing complex, quality transdermal delivery systems and I recommend Amarin Technologies as a business partner.

”

VINCENT MANCINELLI II
President
Rhodes Pharmaceuticals, US

OUR CLIENTS

“

I have followed developments at Amarin Technologies for nearly 30 years. They grew from a small laboratory developing transdermal systems into a respectable company with a modern manufacturing facility supplying patches for Latin-American and European markets. It has been a pleasure to deal with Amarin's managers and I trust the company will also do well in the future.

”

RAINER HOFFMANN
Formerly President of Knoll
Pharmaceutical Company, Whippany,
NJ and LTS Corporation. West
Caldwell, NJ.

OUR CLIENTS

“ *I have partnered with Amarin for the development of multiple complex transdermal products.
They proved over and over again the strong technical skills needed to fully develop and commercialize challenging formulations.
In addition , they've shown a serious commitment to the success of their partnerships.
I would welcome the opportunity to work with Amarin again.* **”**

JOHN PECK

Vice-President, Business Development, Nevakar Inc.
Former Head of BD and Product Selection for Hikma, US
