Formulation and Finished Products

OUR WORK

Knowledge and experience are our strength

Our purpose is to make our customers feel always satisfied with the companies we represent, with their products and services, and we can thus establish great partnerships between both parties.

We are continuously looking for new launches and innovations with our overseas partners to meet the needs of our customers. With partners located in Europe, USA, India, China, Korea and other countries with products of the highest quality and technology and manufacturing unities GMP and internationally approved, we are so continually identifying current and future needs of our six operating markets.

Our interaction involves a work since the beginning of the interest in a product to the after sales of the same, with a gradually follow up so that our customers have peace of mind throughout the process of purchasing our products involving a comprehensive and detailed knowledge of every area of the foreign trade and its negotiation.

Our concern also extends support to the companies we represent so that they can understand our market and they can offer their products with safety and tranquility.

Our technical sales team is able to assist all customers in creating specific strategies to ensure the expansion and growth of the portfolio of their products and at the same time reducing costs and eliminating risks.

We are continuously attentive to regulatory issues to ensure all requirements and new legislation implemented by ANVISA, MAPA, as well as support to the questions and the demands of customers with the companies we represent.

In need of specific products requested by our customers, our team is able to identify potential partners able to produce in special to meet the desired specification and exclusive criteria.

Our concern is always to provide with responsibility, partnership, transparency, respect, fulfilling what was agreed, always bearing in mind not only the present but the future of all involved business.
