

COMPANY PROFILE

Company:

The manufacturing plant is situated at MIDC Industrial Area, Tarapur Boisar which is fully developed chemical zone and it is in close proximity of Mumbai and JNPT Port. We have over 25 years experience of manufacturing Intermediates, Bulk drugs and finished formulations for human and veterinary health. We have well established product and having successful track record of quality, service and reliability.

Quality & Certification:

The manufactured products are subjected to stringent quality testing as per let down pharmacopeias norms and are also subjected to In-house parameter testing for Impurity profiles. Our manufacturing facilities are cGMP approved by Food & Drug Administration, Maharashtra. We are also offering certain products with KOSHER Certification. We are registered and approved by many well known overseas customers and multinationals.

Our Strength:

Our core expertise is complex multi step organic synthesis and handling of various organic highly hygroscopic salts for the manufacture of generic API's and intermediates. Our organic chemistry expertise along with problem solving skill and required analytical back up gives us the confidence to synthesize and commercialize the various molecules so as to meet custom manufacturing needs.

Special Expertise:

We have more than 20 years experience of handling Ethylene Oxide (a hazardous raw material) reactions. We have also created dedicated facility for high pressure reactions, hydrogenation, ammonolysis, halogenations, condensation etc... using Gas Induction Reactors. Other facilities includes Stainless steel & Glass lined Reactors, Fractional distillation Unit and down ward solid handling facilities for Bulk Quantities.

Client Relationships:

Marketing at Arochem revolves around individual clients and their specific requirements rather than focusing on products and their buyers. Arochem hopes to grow in the future by adding to the value it delivers to each client, and not just by adding new buyers to its list of clients.

List of Products Manufactured by us

NEURACEUTICALS:

- CHOLINE BITARTRATE (Coated / Uncoated) 87-67-2 USP/DAB
- CHOLINE BITARTRATE (Coated / Uncoated) 87-67-2 NF/FCC-IV

PIGMENTATION AGENT:

- TRIOXSALEN 3902-71-4 USP

LIPOTROPIC:

- CHOLINE CHLORIDE 75% SOLN 67-48-1 IHT
- CHOLINE DIHYDROGEN CITRATE 77-91-8 IHT
- TRICHOLINE CITRATE SOLUTION 546-63-4 IHT

BRONCHODILATOR:

- CHOLINE THEOPHYLLINATE 4499-40-5 BP
- ETOPHYLLINE 519-37-9 IP/BP/EP

ANTIBACTERIAL:

- SULPHADIMIDINE SODIUM 1981-58-4 IP/BP

ANALGESIC:

- CHOLINE BICARBONATE SOLN 78-73-9 IHT
- CHOLINE SALICYLATE SOLN 2016-36-6 BP

ANTITRYPANOSOMAL AGENT:

- ISOMETAMIDIUM CHLORIDE HCL. 6798-24-9 IHT

INTERMEDIATES:

- CHOLINE BASE SOLN 62-49-7 IHT
-
