# EXPERIENCE AVARA

## AVARA'S PROMISE

We will deliver a world-class, customer-oriented CDMO experience based on these differentiators:

One of the CDMO market's most experienced leadership teams

Delivering on our commitments – on-time, in-full, at a fair price

World-class facilities, proven to meet the highest quality and reliability standards

Exceptional experience and tenure at all sites, delivering institutional knowledge and innovation

Flexibility based on intently listening to customers, and agility to react quickly

Transparency in communications, and overall integrity that drives trust

## CDMO CAPABILITIES

Avara's contract development and manufacturing capabilities reflect the perfect combination of reliability and flexible resources for customers. The experience of our leadership team and the culture we instill across the company ensure that customer priorities are always in focus. With world-class facilities in North America and Europe, we provide flexibility and continual commitment to quality globally. Our infrastructure is designed to offer process and cost optimization, supported by expertise in tech transfers and regulatory expertise.

## EXCEPTIONAL FACILITIES

Avara has built its global site portfolio by acquiring facilities from world-class pharma companies, which have an exceptional record of delivery from APIs to commercialized medicines. We retain long-tenured staff at the facilities to ensure institutional knowledge and experience is part of our DNA, along with proven quality systems and company-wide commitment to delivering to scope, on time, and at a fair price.
