

API CBD ISOLATE

Active Pharmaceutical Ingredient (API) CBD isolate is a purified powder form of CBD. A traditional process is used to remove all the active compounds from the cannabis plant, followed by a refinement process that strips away the other minor phytocannabinoids, including THC, and any plant matter, resulting in a pure CBD crystalline powder.

PURITY
99%+ CBD

SPECIFICATIONS

APPEARANCE

White Crystalline
Powder

CONSISTENCY

Fine Powdered
Crystal

FLAVOR

Neutral to Slightly
Bitter

ODOR

Odorless to Slightly
Terpenoid

SOLUBILITY

Oil-Soluble

DERIVED FROM

Stalk, Stem
and Flower

COMPOSITION

100% Hemp-Derived,
Non-Synthetic
