

# 2019 Company Profile

**Global Partner in Private Label Manufacturing**  
Supplier to the Health & Wellness, Personal Care & Cosmetic industries

# ABOUT US

Aviz Laboratories is a leading private label manufacturer of products for the health & wellness, personal care and cosmetic industries. We pride ourselves on our ability to help our customers develop and bring quality products to market at globally competitive prices.

While we specialise in the manufacturing of effervescent tablets, we also have class leading technology for the production of ointments, soaps and creams.

With over 50 years of experience, Aviz prides itself on being able to develop and manufacture quality products, with flexibility while remaining globally competitive.

TINS PER DAY

### PJ-Based Ointment Line

Our hot-fill PJ-based ointment line is perfect for the production of cosmetic and medical based ointments, lip balms and chest rubs.

### Key Raw Materials

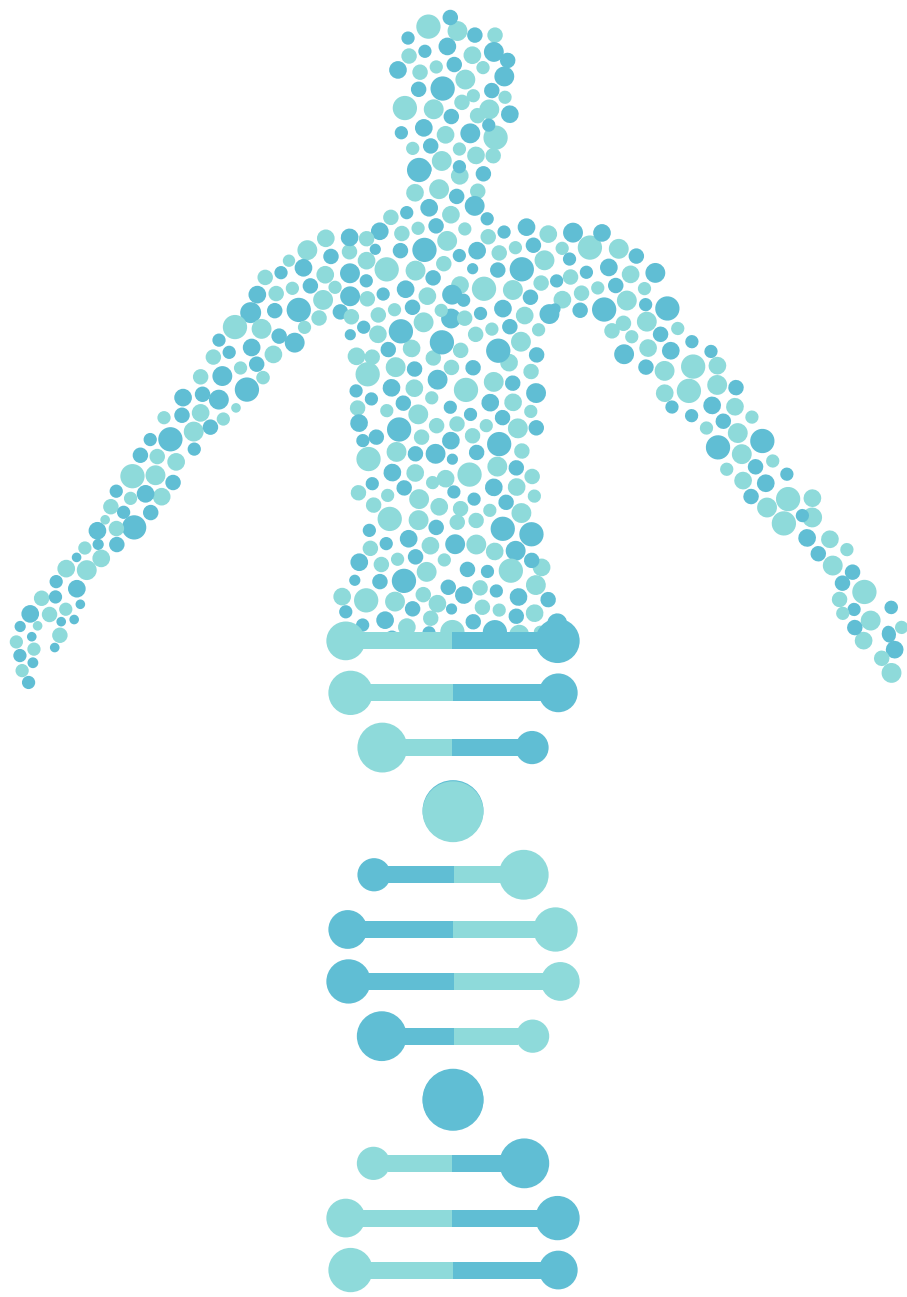

Together with our raw material suppliers we are perfectly positioned to assist in bringing your ointment products to stores.

### Aviz Quality Promise

At Aviz Laboratories we understand that in order to produce exceptional products consistent quality control is an imperative. To ensure the quality of products, all starting materials undergo FTIR analysis and finished products undergo NIR analysis. This provides customers peace of mind that nothing but the best ointments are produced.

# OINTMENTS

PREMIUM OINTMENTS, BETTER SKIN

# SOAPS

Helping your customers stay healthy & looking beautiful!  
Empowering consumers on their personal health & wellness journeys

## 100%

**Our team is committed to ensuring your soap product is as unique as each of your consumers. We currently are able to produce soaps for the anti-bacterial, beauty-care and family hygiene markets.**

Our equipment is capable of producing a variety of sizes including branded bars. With inline packaging we can place your bar in anything from a single SKU carton to a strip of wrapper sleeves.

### FULL TURNKEY SERVICE

From formulation to mould design, our team will ensure a smooth and efficient process from start to wrapped and packed soap bar. No matter what type of soap you need for your consumers, we'll get it done.

### PRODUCT DEVELOPMENT

Colour and smell are as synonymous with quality as texture and feel. Our highly skilled and committed R&D team are ready to help you create a fantastically unique product. Our quality promise ensures consistent delivery of that product every time.

### PRODUCTION CAPACITY

**2700**  
bars per hour

**480 000**  
bars per month

**5 760 000**  
bars per year

A wide variety of high quality creams are produced in our Personal Care lines. This enables us to create and produce creams that are specific to the unique requirements of your end user, as well as manufacture on a mass market level. Our team of specialists allow us to offer a turn-key solution from product development and formulation, right through to offering a variety of options for packaging and shipping configurations.

Whether you are needing aqueous creams, hypoallergenic creams or moisturizing creams and lotions, the Aviz team are specialists when it comes to the creation of products to help manage consumer's skin health and personal care.

The Aviz Quality Promise makes certain all our production processes and stages follow strict cGMP standards in order to ensure reliable results that are well above regulatory requirements.

Our quality assurance management processes are involved at every stage of production to ensure consistent top-quality products are delivered on-time, every time.

# Exceptional Quality

**NEVER COMPROMISE**

Aviz Labs is a recognized cGMP leader in providing private label manufacturing of nutraceuticals, soaps & ointments to the Health & Wellness, Personal Care and Cosmetic industries. We continuously strive to maintain an unwavering reputation for the delivery of exceptional products, services and solutions where quality and dependability are of the greatest importance. We are committed to becoming a pillar of excellence for our customers and providing a true partnership in the development and growth of their business.

Our dynamic and experienced team of pharmacists, formulators and quality managers have the expertise and know-how necessary to take your product from its inception all the way through to delivery. You can count on us to deliver the highest quality products to your exact specifications, and we stand behind each product we manufacture with a complete 100% satisfaction guarantee. That's the Aviz Quality Promise.
