LEADERSHIP & STRUCTURE

CHAIRMAN MESSAGE

Our aim is not only to keep the best position among Pharmaceutical companies in the Middle East region but also we also want to grow beyond regional boundaries. Along with our export to Middle East and North African regions, we are ready to add Asia, Africa and America to our list. In GCC markets, we are strongly focusing in key therapy areas with strong non-prescription driven sales. We will continue to make considerable investments in product development to strengthen our pipeline of affordable niche products for GCC and international markets.

Dr. Riyadh Al Ashban

OUR VISION & MISSION

Vision: Designed to structure a responsible, efficient, innovative, solution oriented and highly quality focused pharmaceutical company. We believe on team work and see our employees as great asset of company.

QUALITY AND TECHNOLOGY

Pharmaceutical technology allow us to manufacture sustained or prolonged-release of drugs thereby reducing the frequency of administration of drug which ultimately reduces the side effects. With the help of new methods and technology drugs are enough pleasant in taste as compared to past. New Pharmaceutical technologies helped significantly to improve the shelf life of products and to prevent drug from biological degradation.

Considering the advantages of new technological trend in Pharma Industry, Bahrain Pharma has invested a good money for technological advance system and we are committed to apply new technologies as much as relevant to our systems. Our main purpose is not to reduce the job by automating systems but our main goal is to produce error free safest medicine to cure the patients.

PRODUCTION PLANT

Bahrain Pharma Softgel Capsules and Syrups Production facility has state of art intelligent production technology and advanced formulation processes. Bahrain Pharma production facility has been designed and built in compliance with international cGMP standards to manufacture best quality products. Bahrain Pharma has selected well reputed companies and highly qualified individuals for design, construction, installation, commissioning, validation, training, start-up, project management and plant operations for a complete animal free Softcaps & Syrup Manufacturing Plant. Bahrain Pharma has manufacturing capacity of 9 billions animal free Softcaps and 25 million bottles of syrups annually.

STRATEGIC PARTNERSHIP

"Good Partnership Great Business":
The Building Blocks of Success

Bahrain Pharma is committed to her best in everything what we do. Partnership has special meaning for us, we believe in partnerships in every field of business. We believe in fare give and take philosophy. We are highly flexible in partnership structure. We are highly motivated and experienced partner with long history of high value collaborations and partnerships.

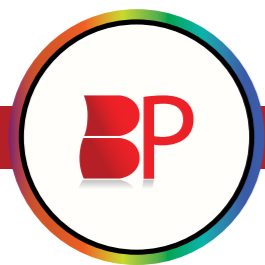

QUALITY

Bahrain Pharma has adopted new technological solution for the production of Softgel capsules. We have solvent free encapsulation system. As a combination of solvent free technology, advance cooling system, automatic linear geared injection system along with high production capacity allow us to produce high quality Softgel capsules in cost effective way.

QUALITY POLICY

"Bahrain Pharma is committed to manufacture and release safe, effective and high quality Pharmaceutical products and services with highest quality standards through continual improvement that comply with applicable regulations and standards that meet identity, strength, quality, purity, safety and performance requirements".

FUTURE PROJECT

Bahrain Pharma Sterile products manufacturing plant will be a new "State of the art" pharmaceutical facility in Bahrain International Investment park (BIIP), Hidd-Kingdom of Bahrain.

The facility will consist of three separate production lines for the manufacture of Vials (Sterile Liquid & Lyophilized), cartridges, ampoules and pre-filled syringes. The facility will be designed, constructed, equipped and validated in compliance with USFDA, WHO, SFDA, EMEA and local Bahraini standards required for the manufacture of sterile pharmaceutical products.

MARKETING

Successful presence in an international exhibition CPhI Paris 7-9 October 2014

Internationally, we are also aiming to expand our Pharmaceutical and Nutraceutical Softgel Capsules business into far east countries, Canada, North America and Latin America, and are pursuing opportunities to expand in other key markets.

Successful presence in an international exhibition CPhI SEA Jakarta 8-10 April 2015

A big recognition for Bahrain Pharma in order to expand our Pharmaceutical and Nutraceutical Softgel Capsules business into South East Asia countries, CPhI SEA was the place to meet a lot interested companies and increase our company brand name awarness.
