

WEST PHARMA

Leadership in Drug Administration Systems and Components

Pharmaceutical, biopharmaceutical and medical device companies around the world rely on West Pharmaceutical Services, Inc. for standard-setting systems and device components for parenterally administered medicines.

West applies proprietary materials science, formulation research and manufacturing innovation to advance the quality, therapeutic value, development speed and rapid market availability of pharmaceuticals, biologics, vaccines and consumer healthcare products.

West Analytical Services applies decades of pharmaceutical industry drug product testing, development and packaging expertise to assist customers through the complex laboratory analysis associated with meeting drug product, stability, container closure and packaging regulatory guidelines.

The Tech Group, a West company, is a global leader in injection molding offering contract manufacturing solutions for pharmaceutical delivery systems, medical devices and personal care and consumer products.

Medimop Medical Projects Ltd., a West company, is a leader in the world market for transfer, mixing and administration systems for injectable pharmaceuticals.

Stevanato Group

Founded in 1949, the Stevanato Group is the world's largest, privately owned designer and producer of glass parenteral packaging for the pharmaceutical industry.

From the outset, Stevanato has been self-sufficient in developing the necessary technology and machinery required to ensure the highest standards of quality and innovation throughout the production process.

The Group is comprised of two operational divisions:

PHARMACEUTICAL SYSTEMS

specialized in ready-to-use glass containers and bulk primary packaging, from syringes and cartridges to vials and ampoules.

ENGINEERING SYSTEMS

specialized in glass forming technology and in inspection systems for the pharmaceutical industry.

These two divisions enjoy a close, synchronous relationship, featuring daily exchanges which ensure that Stevanato Group has complete control over the entire production process, from purchasing the finest raw materials to offering exceptional after-sales customer service.

HELIOFLEX

HELIOFLEX is the first manufacturing unit of flexible pharmaceutical primary packaging in Tunisia, set up in partnership with the company LIFRESCA with head office in Portugal, specialized in this field since 1970.

The strict requirements set out for pharmaceutical products compel the pharmaceutical industry to refuse any compromise in matters of packaging. Aware of this necessity, HELIOFLEX invested, together with LIFRESCA.

JACO S.A.

A long-term based relation with our customers has enabled us to achieve a leading position within the packaging industry that now embraces whole Europe and worldwide exports. As a flexible medium-sized supplier we provide fast and unconventional solutions to our Customer's requirements and ideas.

Our mission is based on high innovation and safety standards. This challenges us to respond to the ever-increasing demands and guarantee the high quality standards of our products—now and in the future.

Past and Present of the Company

The company Jaco S.A. was founded in Kirchheim (France) and is specialised in the manufacturing of pharmaceutical packagings using injection moulded plastics processes. Jaco S.A., from the very beginning, has considered its customers as partners.

Our mission is to respond to the ever-increasing demands, guaranteeing a high standard of quality for our products, now and in the future.

Customer Advantages

Offset printing offers significant additional customer benefit by using recyclable and non-poisonous (PP and PE) materials.

Thanks to the latest technology, we are able to conduct an integrated production process from silo base material to shipment.

This assures a clear hygienic and price benefit for our customers : Our convenient location next to the logistic networks in the heart of Europe guarantees quick and reliable delivery.

Heinlein Plastik-Technik GmbH

Heinlein Plastik-Technik GmbH is a manufacturer and systems supplier of closures, containers, dosing systems and applicators. We supply primary packaging materials made of plastic, glass and elastomers to approximately 60 countries on five continents.

Now in our fourth generation, with Saskia Wellhöfer as the owner, we can look back with pride at the history of our company, which was founded in 1932 and has been operated at the current headquarters in Ansbach since 1978.

Our manufacturing process, including development and construction, our own forming and mechanical engineering, is organized with an injection molding system and assembly line and has an overall area of more than 10,000 m². The high integration level of these functions creates synergies and makes us a high-performing partner for the pharmaceutical, homeopathic, cosmetic and chemical industries.

Short communication paths guarantee the fast and reliable implementation of your requests as a customer. The name Heinlein Plastik-Technik stands for "made in Germany" quality, the greatest precision, customized service and creative solutions. All of our manufacturing, assembly and packaging process steps are subject to global quality assurance standards as per ISO 9001, HACCP, GMP 15378 and ISO 13485. Quality is our most important asset.

We rely on our dedicated employees and skilled, qualified workers. We regularly provide further training to ensure that our employees have the necessary expertise. As a result, we provide an above-average quality and performance standard that particularly benefits you as a customer.

With approximately twenty representatives worldwide, we are successfully improving our position in the international environment as a systems supplier for packaging solutions. Our partnerships with internationally oriented manufacturers of glass and plastic bottles, as well as our close work with providers of filling and sealing machines, make us a partner worth recommending.

The fundamental benchmark for every business relationship is the trust that our customers and business partners place in our performance, reliability and quality. Motivating one another, building bridges and developing team spirit in order to achieve shared goals safely and quickly – that is what we represent.

Stölzle Glass Group

Your Prestige Glass Partner

Our aim is to be the first choice partner for both our customers and our employees, through establishing a culture of reciprocal trust and by striving for first class performance, flexibility, and reliability. This will earn and enable us to sustain a leading role in our HEALTHCARE, PERFUMERY & COSMETICS and PRESTIGE SPIRITS markets.
