

Established in 1996, Biotechnica Pharma Global (BPG) is an integrated pharmaceutical services company providing entire spectrum of pharmaceutical services under one umbrella to fulfill the needs of generic pharmaceutical companies all over the world. We have direct presence across MENA Region, China, India and Europe.

Over the past 20 years, Biotechnica Pharma Global (BPG) has carved a niche for itself in providing value added compliance, regulatory qualification, project management and GDP guidance services to pharma companies all over the world.

Our vision is to be a partner of choice for global compliance project management across the pharmaceutical value chain, adding value not only to pharma manufacturers and marketers, but to each member organization involved in the chain.

Leadership in Drug Administration Systems and Components

Stevanato Group

Founded in 1949, the Stevanato Group is the world's largest, privately owned designer and producer of glass parenteral packaging for the pharmaceutical industry.

HELIOFLEX

HELIOFLEX is the first manufacturing unit of flexible pharmaceutical primary packaging in Tunisia, set up in partnership with the company LIFRESCA with head office in Portugal, specialized in this field since 1970.

Heinlein Plastik-Technik GmbH

Heinlein Plastik-Technik GmbH is a manufacturer and systems supplier of closures, containers, dosing systems and applicators. We supply primary packaging materials made of plastic, glass and elastomers to approximately 60 countries on five continents.

JACO S.A.

A long-term based relation with our customers has enabled us to achieve a leading position within the packaging industry that now embraces whole Europe and worldwide exports. As a flexible medium-sized supplier we provide fast and unconventional solutions to our Customer's requirements and ideas.
