	<ul style="list-style-type: none"> • Incorporation of Bliss Chemicals & Pharmaceuticals India Ltd. • Launch of Suphix, unique product "Today" Vaginal Contraceptive. 		<ul style="list-style-type: none"> • Commissioning of manufacturing units for Tablets & Dry Syringe at Palghat 		<ul style="list-style-type: none"> • Approval of So Health Authorities for Tablets & Dry Syringe Manufacturing units 		<ul style="list-style-type: none"> • Commissioning of new State-of-Art Manufacturing Facility for Suppositories and Pessaries at Palghat • Entry into Middle East through Commissioning of Mfg. manufacturing unit for Suppositories and Pessaries. 	<ul style="list-style-type: none"> • EU-GMP approval for Suppositories and Pessaries manufacturing facility at Palghat. • Entry into Russia and other CO markets 	<ul style="list-style-type: none"> • Strategic Acquisition of Semi Solid Manufacturing Unit to strengthen presence in dermatological segment. • Expansion of product portfolio by setting-up manufacturing unit for Dry Powder Injections, Ampoules, Parenteral Drives. 	<ul style="list-style-type: none"> • Expansion of Research and Development Centre and CDR approval. • Launch of strategic marketing unit for brand and integration. 	<ul style="list-style-type: none"> • Opening of 15 + Diagnostic centres / Clinics in East Africa • Launch of super speciality Hepatitis C products. • Opening of UK subsidiary for expansion in European market. • Opening of Philippines subsidiary for focused marketing in South-East Asia. • Commissioning of 3rd manufacturing plant for oral solid, dry powder • Renewal of EU-GMP-Certification for USA II

and the journey continues...

World-class facilities where quality meets efficiency

We take pride in creating products of the highest quality by combining cutting-edge technology with highly stringent operating procedures and safety practices. Our manufacturing plants are certified to be cGMP compliant by local and international standards - **EU GMP, WHO GMP, ISO-14001, OHSAS-18001**. But our quest for excellence does not end here. In order to make excellence sustainable and continuous, we endeavour to instill a culture of quality and regulatory compliance into all teams involved in the production process.

Our goal of quality at affordable prices can only be achieved by operating at the highest degree of efficiency. The planning, production and logistics teams work in-sync to use Just-In-Time techniques to optimize inventory levels and associated carrying costs across the entire manufacturing lifecycle. Integrating the complete set of business processes including quality systems into a very robust ERP solution driven by the SAP platform is another example of achieving process efficiency of highest degree.

Discovering and **Re-discovering** Pharmaceuticals

Innovation stems from the Latin word, 'novus', meaning 'new'. For most people, this is associated with large discoveries but for us, innovation refers to any step that improves the quality of life for patients.

At Bliss GVS, the Research & Development team plays a crucial role in fuelling the innovation culture throughout the organization. We have an accomplished team in formulation and analytical development, which strives constantly towards creating effective drugs that meet evolving patient-needs.

The R&D lab follows stringent guidelines based on Good Laboratory Practices and is well equipped with all the required instruments like Particle Size Analyser, Gas Chromatography, High-performance liquid chromatograph, Dissolution tester, Stability chambers, and Lab Scale manufacturing machine. It is also certified by the Department of Scientific & Industrial Research (DSIR), Government of India.

We view the R&D function to be the key that will unlock doors into new markets and strengthen our position in existing markets. Bliss GVS is thus committed to continuously invest in enhancing research capabilities to maintain our competitive edge.

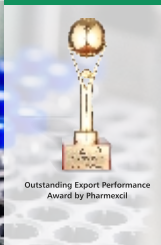

Expanding Global Presence

Boldly venturing into uncharted territories

Catering to customers in diverse countries has its fair share of challenges. It is imperative that we have an in-depth understanding of the market to ensure our execution delivers value for our customers. Our business development team strategically located across the globe provides specific and targeted market intelligence, which is then channeled through our Product and Regulatory teams as well as our business associates to arrive at a suitable product portfolio. We have an experienced regulatory compliance team, which make sure our products meet stringent regulatory guidelines for each market.

Awards: Testimonials of our growing success

Outstanding Export Performance Award by Pharmexcil

National Award for Outstanding Efforts in Entrepreneurship

National Award for Research & Development Efforts

Outstanding Export performance of formulations Award by Pharmexcil

Certificate of Excellence from Inc.India-Innovative 100

Bliss GVS was the only pharmaceutical company from India to make it to the [Forbes](#) List as “Best Under a Billion”

“ Excellence is an art won by training and habituation. We do not act rightly because we have virtue or excellence, but we rather have those because we have acted rightly. We are what we repeatedly do. Excellence, then, is not an act but a habit. ”

- Aristotle.

Harnessing Human Capital

Our people will always remain the most critical driving force in propelling Bliss GVS towards its vision. We have made continuous investments in enhancing the core competencies of our teams in order to empower them to set the highest standards of excellence. We strive to provide a deep understanding of the company's vision and purpose to each team to ensure the collective effort of all teams is focused on our common cause. The consistent growth that Bliss GVS has enjoyed year on year is evidence that these efforts have proved fruitful.

We intend to continue and further scale up these training and development programs to ensure that Bliss GVS is best prepared to service its expansion.

Bridging the gap with **Environment & Society**

At Bliss GVS, we have implemented clean and green processes across our production cycle in order to reduce our carbon footprint. We continuously analyze each step of our manufacturing cycle, study its impact on the environment and strive to bring in controls that ensure we remain environment efficient. This philosophy is reflected across all our manufacturing units and office. At Bliss GVS - **Less is More.**

It is our responsibility to enrich the lives of communities in which we operate. We have frequently undertaken proactive activities like Mega Tree Plantation Drives, sponsoring education, building of roads, etc in areas where our manufacturing plants and offices are located. For our employees, we have fully sponsored initiatives for vaccinations to prevent critical illnesses.

Thus, at Bliss GVS, we strive achieve Responsible growth over and above the traditional 3 parameters of growth – Consistent, Competitive and Profitable. It is our firm belief that this is the only way we can deliver shared value and create a lasting impact on society.

ISO 14001:2004 certification for Environmental Management System is a testament to this commitment.
