ENVIRONMENTAL RESPONSIBILITY

'Over the years, Briyosis has implemented green strategies in wake of the increasing environmental damages caused by industries and other organisation. Briyosis partly uses solar generated energy to meet its needs. The solar power generation plant has a capacity of 125 kW producing nearly 650 units daily.

The manufacturing facility also houses a top of the line Sewage Treatment Plant (STP) and Waste Water Treatment Plant (ATP) to treat the waste water. The treated water is then used to maintain the plantations and gardens within the company campus.'
