

Product List

Drug Substances

Calcipotriol / Calcipotriene

Family: Vitamin D derivatives
 Status: Commercially available
 Regulatory: US-DMF • CEP

Calcitriol

Family: Vitamin D derivatives
 Status: Commercially available
 Regulatory: US-DMF • CEP

Calcium Folate

Family: Reduced Folates
 Status: Commercially available
 Regulatory: US-DMF • CEP • JDMF

Calcium Levofolate

Family: Reduced Folates
 Status: Commercially available
 Regulatory: US-DMF • CEP • JDMF

Calcium Levomefolate

Family: Reduced Folates
 Status: Commercially available
 Regulatory: –

Calcium Mefolate

Family: Reduced Folates
 Status: Commercially available
 Regulatory: –

Doxercalciferol

Family: Vitamin D derivatives
 Status: Commercially available
 Regulatory: US-DMF • CEP

Glycopyrronium Bromide

Family: Long-acting muscarinic antagonist
 Status: Commercially available
 Regulatory: –

Levomefolate Free Acid

Family: Reduced Folates
 Status: Development
 Regulatory: –

Recombinant Urokinase

Family: Recombinant Protein
 Status: Development
 Regulatory: –

Sodium Folate

Family: Reduced Folates
 Status: Commercially available
 Regulatory: EU • DMF

Tiotropium Bromide

Family: Long-acting muscarinic antagonist
 Status: Registration
 Regulatory: US-DMF

Drug Products

New Flora & Pharmaceutical Probiotics based on SF68®

Family: Probiotics
 Status: Commercially available
 Regulatory: –

Animal Health

Cernivet® LBC G35

Family: Probiotic feed additives
Status: Commercially available
Regulatory: EU

Cernivet® LBC ME5 PET

Family: Probiotic feed additives
Status: Commercially available
Regulatory: EU

Cernivet® LBC ME10

Family: Probiotic feed additives
Status: Commercially available
Regulatory: EU

Cernivet® LBC ME20 plus

Family: Probiotic feed additives
Status: Commercially available
Regulatory: EU
