

**CHEMINO  
PHARMA LTD**

**CHEMINO PHARMA LTD**

## **CORPORATE BROCHURE**

**SHAKTI BIOSCIENCE LTD. is now CHEMINO PHARMA LTD.**

## COMPANY OVERVIEW

**CHEMINO PHARMA LTD.** was founded with the aim of being the “Most preferred supply partner” in the Pharmaceutical and Solvents segments for its customers with a clear focus on quality, environment health & safety and affordability of products. This is backed by our in-depth industry knowledge, well-qualified team of professionals, as well as modern infrastructure. The Company is engaged in the manufacturing of pharmaceutical products namely API (Human) & API (Veterinary), Intermediate Chemicals and trading of solvents like Toluene, Iso Propyl Alcohol, Phenol, Ethyl Acetate among others: With the acquisition of Shakti Bioscience Ltd. We have expanded our Pharmaceutical product portfolio, manufacturing capability and entered new markets.

### VISION

To be the preferred manufacturer with assured quality and timely delivery using innovative and modern technology which are cost effective and safe.

### MISSION

To strive for excellence in customer service, quality and manufacturing processes.

CHEMINO PHARMA LTD.

## COMPANY PHILOSOPHY

At **CHEMINO PHARMA LTD.**, we believe that we have a role to play in enriching lives with increased access to affordable healthcare of human and animals. We constantly strive to take up new challenges, be responsible and set new standards in the manufacturing of our products. ## PLANT FACILITIES

### LIQUID HANDLING

Bulk storage and handling facilities | Liquid extraction | Distillations

### SOLID HANDLING

- Vacuum filtration
- Pressure filtration
- Centrifugation
- Agitated Nutsche Filter Dryer (ANFD)
- Fluid bed dryers
- Tray dryers
- Vacuum Tray dryers
- Rotocone Vacuum dryers
- Blender
- Multi Mill
- Shifter

## PLANT FACILITIES

### SERVICES

- Steam boilers 5 ton capacity
- Thermopack 1 lac K Cal / hr
- Hot oil System for temperature up to 300° C
- High Vacuum system less than 2 Torr
- Chilling / Brine Plant temperature less than -15° C
- Demineralized / Purified Water Plant
- DG Set - 1200 KVA

### REACTORS

#### Glass/Glass lined Reactors

- Capacities from 100 liters to 12500 Liters
- Total Capacities : 78000 Liters

#### Stainless Steel Reactors

- Capacities from 250 Liters to 10,00 Liters
- Total Capacities : 98000 Liters

### DISTILLATION

- Glass and SS columns
- Fractionation High Temperature

## PLANT FACILITIES

### R & D CAPABILITY

Our passionate and driven R & D Team constantly strives to increase its know-how.

- Parallel Synthesis Laboratory
- Process Research Laboratory
- Gram Scale Synthesis Laboratory
- Kilo Laboratory
- Pilot Plant

### QUALITY CONTROL

Quality forms the crux of our consistent drive towards perfection. The process of Quality Control begins right from vendor selection and processes up to finished products.

We have a fully equipped Quality Control Laboratory to adhere to the requirements as per GMP and statutory bodies that ensures the suitability of input materials and monitors the progress of reactions at every stage till the final finished products.

- GC
- Auto Titrators
- Moisture Analysis
- Polarimeter
- Potentiometer
- HPLC
- Karl Fischer
- UV Spectrometer
- Stability Chambers
- Environment Health

A full-fledged Effluent treatment facility is established in the factory to treat the liquid and gaseous emissions. The treated stream is connected to the common effluent treatment plant (CETP) of the industrial area for final discharge.
