HDPE
3.6 | 6 | 10 | 15 | 20 | 26 | 42 | 55 | 68 litres

Total opening drums

Water (vapor) tight
Tamper evident
Stackable
UN certified (1H2) for solids
HDPE
17 | 26 | 34 | 39 | 55 | 64 | 75 | 90 | 110 litres

Nestable drums

Water (vapor) tight
Tamper evident
Stackable
UN certified (1H2) for solids
HDPE
30 | 40 | 50 | 60 | 75 | 115 litres

Conductive drums

Surface resistivity $\leq 1,000,000$ Ohm
Water (vapor) tight
Tamper evident
Stackable
UN certified (1H2) for solids
HDPE
26 | 75 litres

UV safe drums

UV protection within the 200 – 400 nm range
Water (vapor) tight
Tamper evident
Stackable
UN certified (1H2) for solids
HDPE
6 | 15 | 26 | 55 litres

Biobased packaging

HDPE from a renewable resource
Water (vapor) tight
Tamper evident
UN certified (1H2) for solids
26 litre Wide neck drum
1000 ml Packo

Packo

Small volume container with screw lid and innerseal

Water vapor tight

Open and close with just a quarter-turn

Tamper evident

Smooth inside

UN certified (IH2) for solids

HDPE

300 | 500 | 650 | 1000 | 1300 | 1500 | 2000 | 2500 ml

Packo

Small volume container with screw lid with integrated gasket

Water vapor tight

Open and close with just a quarter-turn

Tamper evident

Smooth inside

UN certified (IH2) for solids

HDPE

300 | 500 | 650 | 1000 | 1300 ml

Pharma Grade Packo

Small volume container with screw lid and innerseal

Certified according to EU and US Pharmacopeia

Water vapor tight

Open and close with just a quarter-turn

Tamper evident

Smooth inside

UN certified (IH2) for solids

HDPE

300 | 500 | 650 | 1000 | 1300 ml

UV safe Packo

Small volume container with screw lid and innerseal

UV protection within the 200 – 400 nm range

Water vapor tight

Open and close with just a quarter-turn

Tamper evident

Smooth inside

UN certified (IH2) for solids

HDPE

300 | 500 | 650 | 1000 | 1300 ml

Click Pack

Nestable container with screw lid

Water vapor tight

Open and close with just a quarter-turn

Tamper evident

Smooth inside

UN certified (IH2) for solids

HDPE

6 | 10 | 15 | 20 | 25 litres

Duo Pack

Pail with insert and press-on lid for two-component materials

Smooth inside

UN-Y certified (IH2) for solids

PE

1.2 | 5 | 10 litres

CurTec drums and containers with their signature screw lid closure and have been designed to meet stringent industry demands with regard to safety, security and certification.

Our plastic drums and containers are made from high density polyethylene (HDPE) and manufactured to high standards of quality and cleanliness. They are moisture (vapor) tight, tamper evident and UN certified for hazardous solids.

Features & benefits

Avoid contamination: our Hygiene Management System allows us to manufacture visually-clean packaging

Avoid softening or caking of solids or powders: mounted or integrated gaskets prevent moisture ingress

Prevent valuable content from tampering with our tamper evident sealing features

Make sure your hazardous solids arrive safely at their destination: UN certificates are available

Comply with food safety legislation: ask for our Regulatory affairs data sheet

Lower cost of storing and shipping empty packaging: our nestable solutions take up less valuable storage and cargo space

Set your product apart from the competition with the distinctive design of CurTec packaging

Take your brand identity to a new level by customizing our packaging with colours, labels, sleeves and printing

Lower your carbon footprint: all packaging products are manufactured of 100% plastic and be re-used over and over
