- Swing-bars improve safety and ergonomics
- Nestable yet with optimal internal dimensions
- Labelling surfaces above and below the orderpick opening
- Base suitable for conveyor belts
- Suitable for flow racks
- Resistant to low temperatures
- Capacities 45 | 60 litres

Application:

HIGH PERFORMANCE PACKAGING

FEATURES AND BENEFITS

Easy handling

All crates are well equipped with handgrips on the short sides. The top rim of the lidded crates can also be used as handgrip. Ideal for use in trolleys.

Customisation

Crates can be manufactured in various colours. Your logo and/or company name can be printed or engraved to enhance your image.

Label possibilities

Crates can be labelled temporarily or permanently. The position of the label on the crate is vital for the life-span of a label. Our Materials Handling team can advise you of the best position of the label concerning the crate and your process.
