Beyond our medicines, *lives*

A clear focus on CNS and Hospital Injectables

Ethypharm is an European pharmaceutical company focused on two areas: the Central Nervous System and Hospital injectables. Ethypharm markets its drugs directly in Europe and China, and with partners in North America and the Middle East where its drugs are in high demand. The Group employs 1,500 people, mainly in Europe and China. Ethypharm works closely with authorities and healthcare professionals to ensure the appropriate use of, and access to its medicines by as many people as possible. Because what matters in the end, is the life of the patient.
