TRANSPORTATION & WAREHOUSING

1. One-Stop-Shop logistic provider.
2. Strategically located warehouses near ports across India.
3. Full range of transport service across country
4. State of art warehouses with networking
5. Round the clock security

India's vast geography can make the transport arrangements quite cumbersome and tedious. GCL has found a solution to this by owning trucks and trailer - apart from the fleet of trucks available through well connected networks across the country. Our warehouses are strategically located in proximity to ports and business centers making transportation fast and smooth.

As part of GCL one-stop-shop, there are specified departments for each service. Attention to detail in transportation and planning is our strength. Trucks and low bed trailers are specially designed to transport the project cargo and easy lifts further smoothen our operations. We are thus able to provide our customer complete transportation service in any part of the country.

Our warehouses in and around business capitals make an ideal place for the companies who are traders and distributors, the open warehouses are well equipped to handle the heavy lifts, ODC packages and heavy project machineries. The covered warehouses are equally competent with RCC rood, rakes and stakes to handle all types of cartons and pelletized cargoes.

PROJECT SERVICES AND BEARK BULK SERVICES

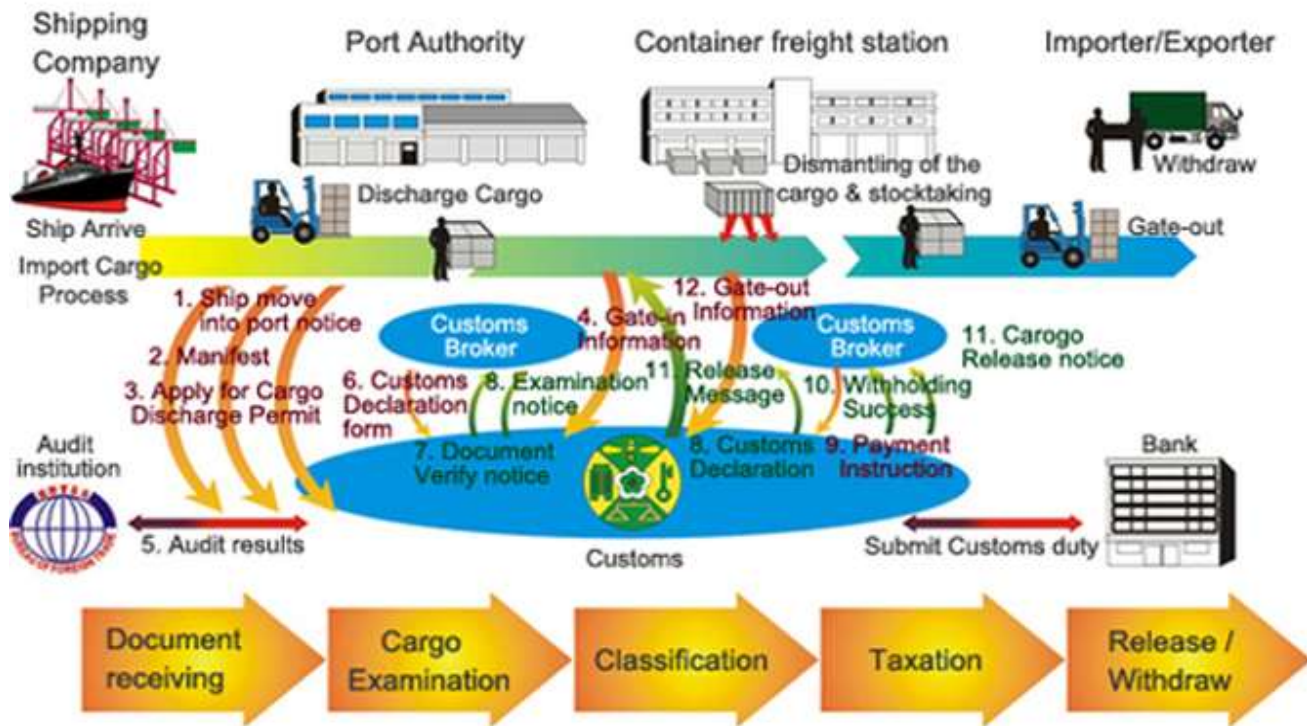

1. Proactive project handling team
2. Complete documentation services.
3. Worldwide Networks
4. Dedicated Air and Sea
5. Provide Break Bulk vessel at all destinations worldwide
6. Complete Logistic Solutions

Our client commits their deliveries, because we honor our commitment. Our proactive project handling team is well-versed with all aspects of project management and customs clearance. An efficient staff is dedicated to each customer during every phase of the process. Experienced field staff plans the mobilization of any of ODC packages and heavy machinery. We provide complete documentation services such as project registration.

Worldwide networks and global association with leading, experience project management and logistics companies ensure door-to-door project service to mobilize heavy lifts and over dimensional cargo from any part of the world to Indian ports and vice-versa. Coordination of inland transportation and scheduling and an exclusive team to monitor the charter and freight forwarding services ensure timely. GCL has dedicated air and sea chartering division to provide the complete project logistics services to all our clients.

IMPORT-EXPORT CUSTOM CLEARANCE

GCL's range of service makes the world a smaller place. Its one-stop-shop service makes import-export to any place hassle free. A well-trained work force with in-depth knowledge of customs policies and procedures provide complete and competitive solutions to a diversified clientele. Immediate, personal attention and latest information or complexities of customs policies and procedure is GCL forte.

Our knowledge and experience in EXIM policies and procedure have helped many of our corporate customers and multinational companies to streamline their import and export operation in the post-liberal and fast growing economic scenarios of Indian trade.

The proximity of our offices to customs and port offices gives us an added advantage to effectively follow up with the respective statutory bodies and meet deadlines.
