Partner Presentation

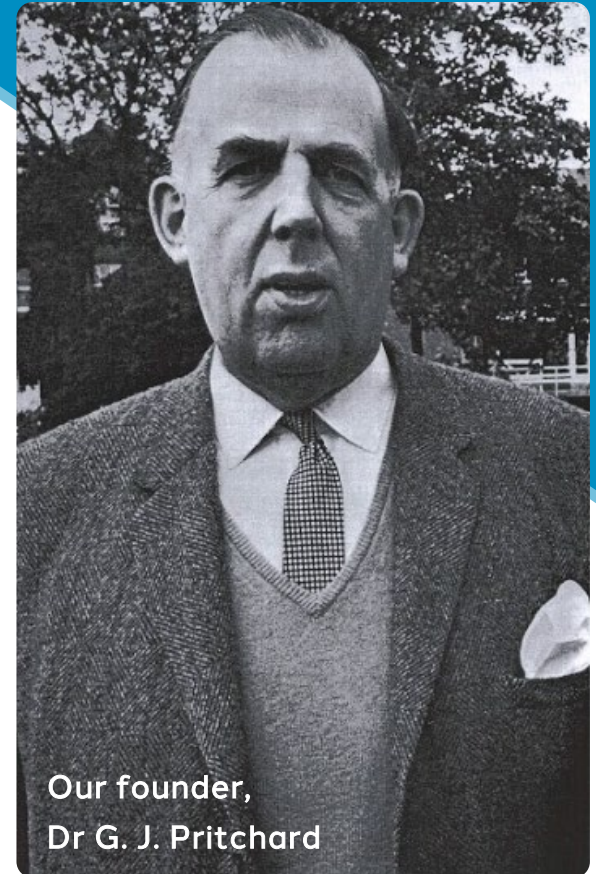

# Halewood Chemicals a family business

Halewood Chemicals is a producer & distributor of generic pharmaceuticals and raw materials. Based in the United Kingdom, we export all over the world.

Founded as a wholesaler of medicines and raw materials, Halewood has since expanded into the development and licensing of own brand generic pharmaceutical finished products and over-the-counter (OTC) healthcare products.

The Halewood Chemicals Group was formed by Dr Gordon James Pritchard in 1947. Over the past 70 years, the group has provided healthcare products to healthcare professionals all over the world – from small projects to national tenders.

To this day it continues to be a family business, with Dr Pritchard's daughter, Mrs Susan de Zulueta, the current managing director.

Our founder,  
Dr G. J. Pritchard

# The Halewood Chemicals Group

- Wholesales finished products, active pharmaceutical ingredients (APIs) and excipients in bulk or small pack sizes.
- Licensed by the UK Home Office MHRA for the importation, storage, distribution and export of a wide variety products.
- Operates under EU Good Distribution Practice (GDP) standards.
- Subsidiary company registered within the European Union, in Ireland: **Halewood Chemicals Ireland Limited.**

- Marketing Authorisation Holder of a growing number of niche generic finished products.
- All products are manufactured in line with Good Manufacturing Practice (GMP).

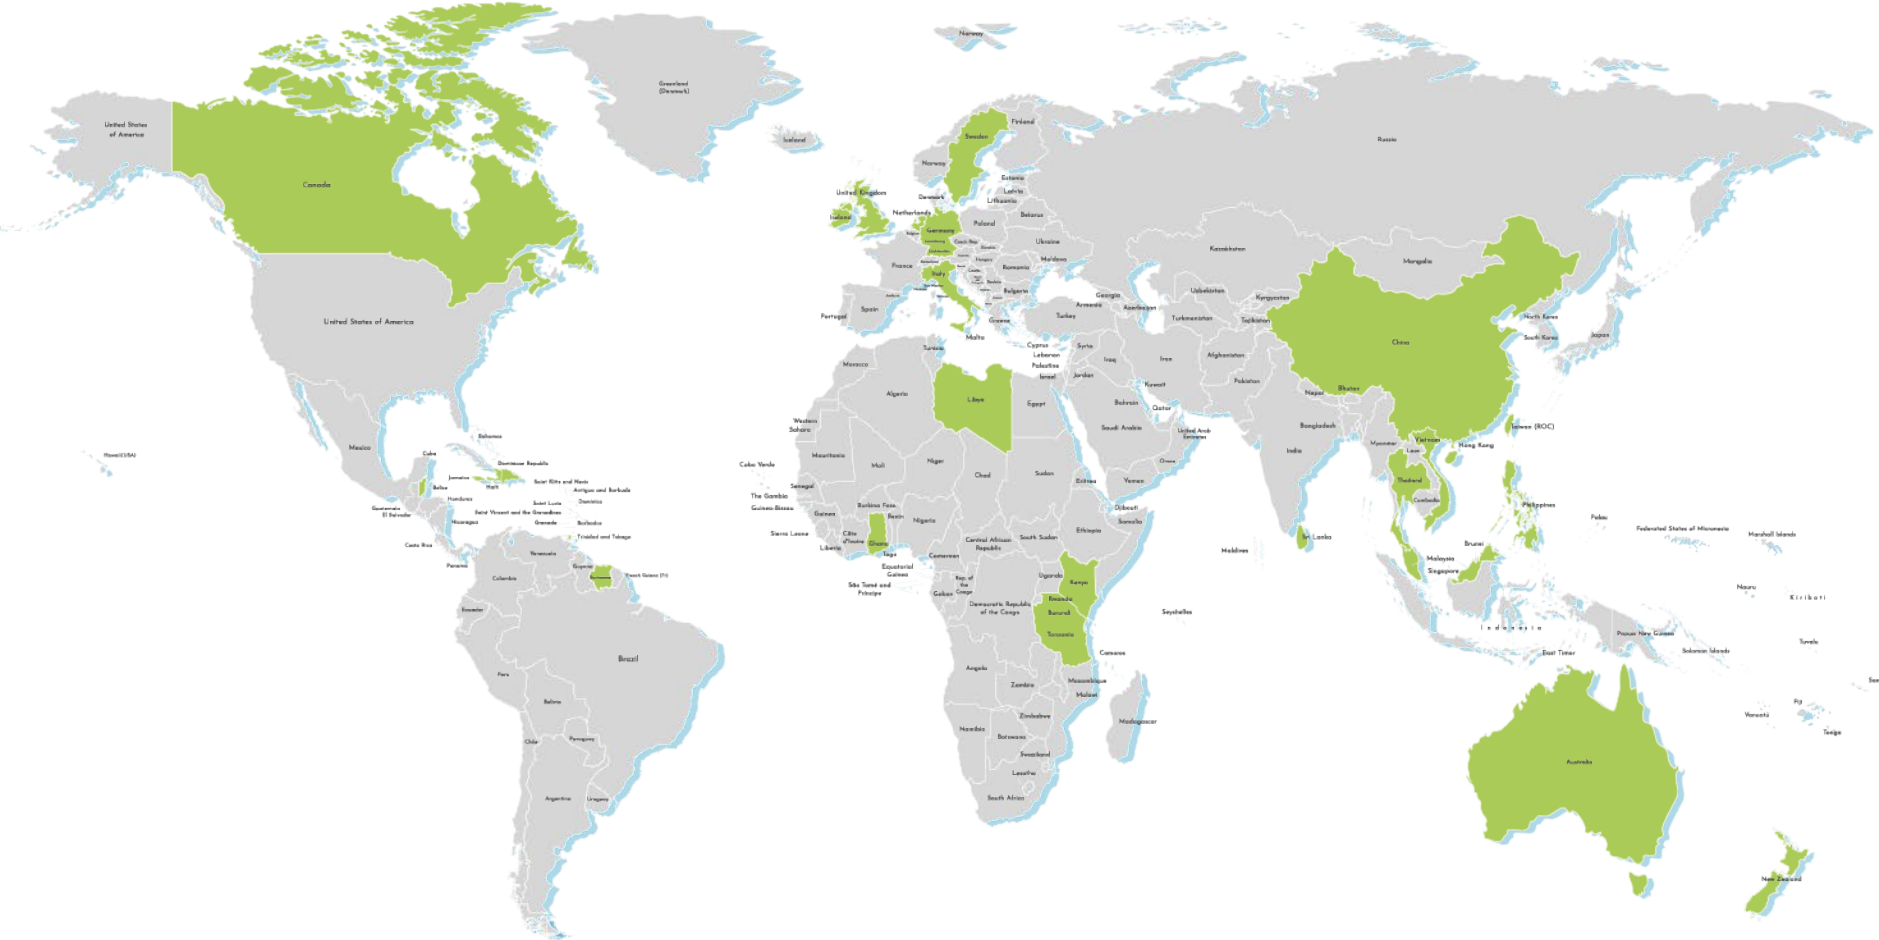

- Specialises in the sales, marketing & distribution of branded over-the-counter (OTC) healthcare products.
- Three established brands:
  - **Halifresh**, effervescent mouthwash tablets.
  - **HaliplaQ**, plaque disclosing tablets.
  - **DinoplaQ**, kids' plaque disclosing tablets.

# Hear from some of our existing partners

There's a reason why many of our existing customers have worked with us for decades

“ Halewood Chemicals Limited has been a valued supplier for over 30 years now. They have been supplying us with pharmaceutical products of consistent quality and their reliability of service has been excellent. They have been instrumental in the continuing success and growth of our pharmaceutical division. I can confidently recommend Halewood Chemicals Limited as a solid and highly dependable supplier and experts in their field.”

 **Distributor, based in the Philippines**

“ Halewood Chemicals Limited has been participating in our tender process over the past seventeen years. As a manufacturer, Halewood Chemicals Limited has not only provided products of the highest quality but has given excellent service.”

 **Ministry of Health for Jamaica**

“ We have been agents of Halewood Chemicals Limited for more than forty years. During this period of time this company has maintained a good quality supply of their pharmaceuticals. Moreover, their supply of goods is very regular. We strongly recommend any company to co-operate with this company.”

 **Agent, based in Hong Kong**

# The opportunity for you as a customer

There's a reason why many of our existing partners have worked with us for decades

## Family Values

As a third-generation family business, everything we do is underpinned by integrity, trust, excellence, and a conviction always to think long-term.

## Speed & Access

Enjoy fast turnaround times with your own Account Manager, direct updates from our Head of Shipping, and access to our Managing Director.

## Ambitions to Grow

You can begin a relationship with a fast-growing company actively developing and registering new generic products in the EU and Rest of the World.

## Regular Communication

We communicate regularly with our clients by email, online, or in-person visits to your country. We always strive for mutual benefit.

## Regulatory Support

Benefit from our team of regulatory experts, who will assist you to ensure all your local requirements are met and correct documentation provided.

## Highest Quality Products

The UK's strong regulatory environment and high manufacturing standards ensure we can deliver the highest quality healthcare products to you.

## Bespoke Flexibility

Tailor our products to meet your local needs; our team can customise everything from pack size to artwork, label language, and presentation.

## Stable & Reliable Supply Chain

With over 70 years' specialist experience, a global distribution network, and extensive planning, we ensure our goods always arrive with you in a timely and secure manner.
