

HR₄

The Elements For Life

HRV Global is a leading
manufacturer & exporter of a wide range of
Active Pharmaceutical Ingredients

HRV – at a Glance

Business

Over a decade of experience in Pharmaceutical Manufacturing, Operations, Sales & Business Development

Sourcing & Selling

Actively sourcing & selling over 400 different pharmaceutical products to more than 100 Global Corporations

Drug Substance

Representing over 55+ Large & Medium Indian Drug Substance Makers with their products - focusing on Europe, US & Middle East Markets

Customer Relationships

Focused on Long-Term Customer Relationships & Global Delivery Capabilities

Global Locations

Presence in 7 Global Locations - Hyderabad(India) -Global HQ, Switzerland, Turkey, Iran, UAE, Lithuania & USA

GDP

SWISS MEDIC License for GDP - Requisite Regulatory Approvals adhering to GDP (Good Distribution Practice Norms) with established Quality Management Practices

Repeat Business

Repeat business of over 85%

HRV Global Manufactures &
Distributes Active Pharmaceutical
Ingredients & Intermediates

For the last 5 years, HRV Global has been sourcing and supplying active pharmaceutical ingredients and intermediates and providing related services. We offer a broad range of materials including fine chemicals as well as critical and advanced intermediates.

With excellent experience in sourcing, manufacturing and supplying drug substances, as well as providing related services, we offer the following complementary solutions to meet your needs.

COMPLEMENTARY SERVICES-

Custom Synthesis Services - for nonsource able and hard to find APIs/IMs, our partners can help with unique RoS (Route of Synthesis) services that satisfies any technological requirement.

Quality Related Services - assess supplier and site qualifications supporting all quality questions regarding GM P and N-1 intermediates.

Regulatory Services - support in compilation of regulatory documentation required for GMP audits and provide crucial assistance during registration procedures for specific markets including product development/ regulatory strategies, pre-submission and/or scientific advice procedures.

"To empower our customers everywhere by working with them to deliver a unique combination of profitable best practices and capabilities to maintain quality and continually improve their product offerings"

**We understand that customers
are looking for stability and
confidence when it comes to
quality, yet they demand flexibility,
speed and effectiveness**

PRODUCT PORTFOLIO

From its own portfolio and its sourcing partners' portfolios, HRV offers drug substances, intermediates, finished products including:

Drug Substances -

Active pharmaceutical ingredients

Intermediates -

Advanced pharmaceutical intermediates

Excipients -

Pharmaceutical additives, anti-adherents, binders, coatings and lubricants

Finished Drug Products -

Innovative drugs and technologies, generic drugs & consumer healthcare products.

Primary Packaging-

Aluminum foil, glass and plastic bottles, closures and accessories

In addition, we cater to all stages of the pharmaceutical supply chain to meet specific needs of our customers.
