Partners

IBN Savio is controlled by its parent company F&S Holding S.r.l., privately-owned Italian enterprise that includes four companies that operates in the pharmaceutical field, covering different areas:

**Development, Manufacturing, Medical Scientific Information, Distribution and Sales.**

\* 2019 Internal data

**SAVIO**  
Istituto  
Biochimico  
Nazionale

IBN Savio was created in 2014

IBN Savio holds all the MAs and has all the capabilities to maintain, manage and develop its products

The company is also the distribution and sales center for all products promoted in the Italian market by the other companies of the Group

Today IBN Savio is extremely interested in developing foreign markets for its existing products and for new products

IBN Savio's mission is to ensure people longer, healthier and happier life by offering safe and effective medicinal products.

We pursue this goal with commitment, enthusiasm and a strong sense of responsibility towards our partners: **patients, health care professionals, distributors or institutions.**

## **MOTIVATION**

Our actions are aimed at finding and successfully addressing new challenges beyond the usual corporate requirements by setting ambitious targets implicating exploration and creation of new development and expansion paths

## **ETHICS**

Our behaviors always respect people and environment as well as our social, legal and environmental responsibilities as professionals and as members of the society as a whole

## **ADAPTABILITY AND FLEXIBILITY**

We are ready to accept and to adapt to a changing environment, to quickly modify our actions when situations require, and to assume tasks and functions different from those we usually perform

## **CREATIVITY AND INITIATIVE**

We are innovators in all the activity areas of our daily work, proactively anticipating events and requirements, identifying growth options and constantly proposing alternative solutions
