

Jinan Tantu Chemicals Co., Ltd.

Jinan Tantu Chemicals Co., Ltd. is a CDMO company serving global pharmaceutical companies, providing custom R&D and production of small molecule pharmaceutical intermediates and APIs for international and domestic pharmaceutical companies, with capabilities ranging from laboratory kilogram to commercial ton scale production. Jinan Tantu Chemical Co., Ltd. is also dedicated to the independent research and development, production and sales of high-end pharmaceutical intermediates and API products.

With advanced equipment and chemical synthesis technology, the company provides a continuous supply of APIs and intermediates to domestic and foreign pharmaceutical plants. At present, our advantageous pipeline products include anti-tumor series, renal disease series, ophthalmic drug series, pulmonary and cardiovascular series, antiviral series and anti-infection series.

Our Factory

The company currently has one R&D center and two bases. Jinan Tantu R&D center, Laiwu pilot base and Heze production base.

Jinan Tantu R&D Center

It is located in Building G of Jinan Dia Double Creation Industrial Park, covering an area of 1,300 square meters; set up synthesis laboratory (small fume hood × 32), analysis and testing center, pilot laboratory (50L × 24); equipped with high performance liquid chromatograph, gas chromatograph, Karl Fischer moisture meter, etc.

Laiwu Pilot Base

Located in Laiwu Pharmaceutical Industry Park, the industrial park has 48 buildings, consisting of two functional sections: pharmaceutical industry incubation park and pharmaceutical industry shared service platform, with a total planning area of 4 square kilometers, focusing on the layout of biopharmaceutical and medical device industry sections. Approved as a provincial-level science and technology incubator. It covers an area of 1,500 square meters; it has set up a small test laboratory, a pilot plant, an analysis room, 3 sets of glass reactors (100L), 4 sets of enamel reactors (500L-1000L), a set of high-pressure reaction pilot equipment, 2 sets of centrifuges, 2 sets of drying ovens, 1 set of airflow crushing, etc.

Heze Production Base

Located in Shanxian, Heze and Jancheng, Shandong, with a total building area of 10,000 square meters, including 2 intermediate workshops in Shanxian, 2 API workshops, and 1 intermediate workshop in Jancheng. 120 reactors from 500L to 3T and standardized warehouses are equipped with solvent recovery workshop and high temperature (200°C), low temperature (-78°C), distillation and other professional facilities.
