Vision Statement

Our Vision

- To acquire and maintain global leadership in chosen areas of business
- To continuously create new opportunities for growth in strategic businesses
- To be amongst the Top Ten most admired companies to work for
- Adopt cost effective and safe practices.

Team & Mission

➤ We build up a team of Highly qualified professionals with vast Academic & Industrial experience, highly motivated and involved in active research & setting up of green field projects. Wealth of experience in successfully becoming a reliable and dependable partner in Process Development and Manufacturing Services, with a “WIN – WIN” objective.

➤ Our mission is to create an organization that is reliable and dependable partner in Process development and manufacturing services for custom chemicals, API's and grow the organization by providing a mutual beneficial long – term relationship

Proposed Model & Way forward.....

Initially our plan is to have two fold business operations:

- Development and direct sale of our own intermediates and API to Indian and global generic players
- Contract manufacturing of API and intermediates

Way forward for first five years in terms of certifications

- To Obtain several Certificates of suitability for our APIs which are going to develop and Manufacture
- Members in Pharmexcil(Pharmaceutical Exports council of India)
- Members in BDMA (Bulk Drugs Manufacturers Association)
- Member in Telangana Chamber of Commerce.

Technical Capabilities in First Phase

Technical Infrastructure

Stainless steel reactors with total reactor volume of 34 Kilo Liters (8KL ,6KL , 5KL(2),3KL(2),2KL(2))

Glass line Reactors: 16 Kilo Liters(5kL,4KL,3KL,2KL,1KL(2))

Temperature Range: -10°c to 200°c

Pressure Range: 10kg/cm³

3 Ton boiler.

120 TR -10 chilling plant.

Distinctive Cooling towers to reactors, condensers and utilities with respective capacities.

DM plant for processing water. MEE and ETP will be operated to treat the effluents. Installing scrubber for gasses emissions.

ANFD: 2 (1KL & 2KL)

48 inch 4 leg Gmp model 4 No centrifuges.

Tray Drier: 1 (96 trays)

Vacuum Tray drier:1 (46 Trays)

Miller, shifter, Micronizer, leaf & Nutch filters,

Vacuum & Air systems.

Thank You
