Pharma &
Nutraceuticals
Feed & Veterinary

From the inception of LDCo, in 1928, the company has never looked back, growing at a very decent pace year after year. LDCo is trading and distributing chemical raw materials for various industries. The objective of LDCo is to become a leading player in the Chemical supply business in Asia & Europe through a very dedicated & qualified team.

Our hallmark as an efficient supplier enables us to meet customers request accurately, on time and on budget. We take pride in not only having the most advanced technology to locate the most difficult to find raw materials but have a team on the front line to provide our customers with the most proactive customer centric approach to meet their business requests promptly.

LDCo has already established its reliable product principles in India, China and the Far East. At present the company has strategic tie up with more than ten contract manufacturers in India & China for production of raw material for Personal care, Pharma and Nutraceuticals, Food Ingredients and few other industries. It is our pledge to provide quality products and services to our ever-growing delighted customers through our core principles of accountability and reliability and transparency in all aspects of our dealings, both internally and externally.
