About Us:

- Lozen Pharma specializes in developing and manufacturing medicated confectionery products for the international OTC healthcare market.
- Our state-of-the-art manufacturing facility is located in Karnataka, India.
- The facility is designed and built as per cGMP guidelines to comply with the stringent regulatory guidelines.
- The facility is equipped with high-speed automated production and packing lines and is accredited with GMP, ISO 9001:2008 and HACCP certifications.
- We are also licensed by FSSAI for the manufacturing of lozenges and other confectionary products to cater global markets.

Vision:

“To become a leading provider of medicated confectioneries as a novel drug delivery system to address the unmet healthcare needs across the globe.”

Our Values:

About Medicated confectionery:

- Medicated confectionery is a globally accepted alternative drug delivery system that is tasty, enjoyable and palatable.
- Lozenges are alternative to conventional dosage forms of tablets and capsules that dissolve in the mouth over a period of time and need not be swallowed thus making it easier for pediatric and geriatric patients.
- The benefits of medicated lozenges is to increase the retention time of the dosage form in oral cavity which increases bio-availability, reduces gastric irritation and bypasses first pass metabolism.
- Thus, it is ideally suited for the delivery of OTC medication such as cold and cough remedies and nutritional supplements.

Product Offerings:

- Our Product portfolio includes OTC products such as Herbal Cough lozenges, Herbal Candies, Medicated Confectionery, Sore Throat Lozenges and Cough Drops.
- Our Herbal Cough Lozenges are exported to Nigeria, Ghana, Kenya, Ethiopia, Afghanistan, Yemen, Kazakhstan, Malawi, Zambia, Ukraine, Latvia, Romania, Armenia, Azerbaijan and many more countries.
