MEDINEX LABORATORIES

Introduction

Medinex is a niche API manufacturer with global reach. Our business is built on a strong research and development foundation and our manufacturing operations are supported by state of the art facilities.

Medinex has built a successful track record with a growing roster of domestic and international customers over two decades. And some of company's valued customers in India are Sun Pharma, Dr. Reddy's, Intas, Cadila, and international customers are AstraZeneca, Merck, Teva, Sanofi, Fresenius Kabi, J&J, Novartis, Fischer Chemicals, Pharma Serve, Vivatis.

Medinex follows cGMP norms and our manufacturing facility has been inspected & approved by US-FDA and Mexican Regulatory Authority-COFEPRIS.

Medinex attaches great importance to green and clean environment, therefore the company has installed a 135 KW captive Solar Power plant which contributes ~40% power requirement of the manufacturing facility, and has invested in an in-house MEE Plant, a fully automated Zero Discharge Effluents Treatment Plant.

Medinex produces niche APIs based on Adrenaline:

- Adrenaline Bitartrate.
- Noradrenaline Bitartrate.
- Isoproterenol HCl.
- Carbazochrome

Additionally, company also produces:

- Dimenhydrinate**
- Diphenhydramine Hydrochloride
- L-Glutamic Acid Hydrochloride

** Produced using the Medinex process with Class-II solvents.

We have attached a product list (word file) with all details. Kindly note that all products are manufactured at our US FDA inspected facility & have received EIR. More importantly, we have also applied for CEP certification for the product **Dimenhydrinate EP, Noradrenaline Tartrate EP & Adrenaline Tartrate EP in the month of November-2020**, for which an audit is awaited by EDQM Authority.
