

MENADIONA

**API's - ADVANCED INTERMEDIATES - SPECIALTY CHEMICALS -
AZIRIDINE CHEMISTRY- CONTRACT MANUFACTURING - CUSTOM SYNTHESIS**

More than 40 years manufacturing Ethyleneimine (EI) allow us to offer many of its derivatives, such as Propyleneimine (PI), EI or PI crosslinkers, Ultra Pure Crosslinkers (UPC) and innovative key intermediates.

**Experts in
Aziridine
chemistry**

your trusted **European** manufacturer in special chemicals

MENADIONA has 2 production sites with an overall reaction capacity of more than 400.000 L. Since 1970, we have been manufacturing active ingredients and key intermediates for the Pharmaceutical, Veterinary and Plant Health industries, as well as for CASE and other industrial applications.

Besides our open product list, we are active in **CONTRACT MANUFACTURING** and **CUSTOM SYNTHESIS**.

Our core technology is based on the synthesis of complex organic chemicals and the handling of hazardous materials in a safe and responsible manner.

Our state-of-the-art R&D center and Pilot Plant carry out Process and Analytical development.

Our company complies with the strict **GMP** and **FDA** regulatory requirements and has the **ISO 9001: 2008** certification.
