Product List

Product Name	Dosage	Pharmaceutical Presentation
Cefaclor hydrochloride capsules	500 mg	8 hard capsules
Cefaclor hydrochloride oral suspension	250 mg/5 ml	100 ml bottle
Cefamandole nafate for injection	1 g /4 ml	1 vial powder + 1 ampoule 4 ml water for injection/lidocaine 0,5 %
Cefamandole nafate for injection	1 g	50 vials powder
Cefamandole nafate for injection	1 g	100 vials powder
Cefazolin sodium for injection	500 mg/3 ml	1 vial powder + 1 ampoule 3 ml water for injection/lidocaine 0,5%
Cefazolin sodium for injection	1 g /4 ml	1 vial powder + 1 ampoule 4 ml water for injection/lidocaine 0,5%
Cefazolin sodium for injection	1 g/10 ml	1 vial powder + 1 ampoule 10 ml water for injection/lidocaine 0,5%
Ceftazidime pentahydrate carbonate for injection	250 mg/1 ml	1 vial powder + 1 ampoule of 1 ml water for injection
Ceftazidime pentahydrate carbonate for injection	500 mg/1,5 ml	1 vial powder + 1 ampoule of 1,5 ml water for injection
Ceftazidime pentahydrate carbonate for injection	1 g/3 ml	1 vial powder + 1 ampoule of 3 ml water for injection
Ceftazidime pentahydrate carbonate for injection	1 g/10 ml	1 vial powder + 1 ampoule of 10 ml water for injection
Ceftazidime pentahydrate carbonate for injection	2 g	1 vial powder
Ceftriaxone sodium for injection	1 g /3,5 ml	1 vial powder + 1 ampoule of 3,5 ml water for injection/lidocaine 1%
Ceftriaxone sodium for injection	1 g /10 ml	1 vial powder + 1 ampoule of 10 ml water for injection
Ceftriaxone sodium for injection	2 g	1 vial powder
Cefuroxime sodium for injection	750 mg	50 vials powder
Cefuroxime sodium for injection	750 mg	100 vials powder
Cefuroxime sodium for injection	1,5 g	1 vial powder
Cefuroxime sodium for injection	1,5 g	50 vials powder
Cefuroxime sodium for injection	1,5 g	100 vials powder
