

PPD[®] Biotech

Flexibility
and Personal
Attention
Meet Global
Resources

A Unique Solution for a Unique Set of Challenges

BIOTECH COMPANIES FACE UNIQUE CHALLENGES WHEN DEVELOPING A NEW THERAPY. THESE CAN INCLUDE:

Working with
leaner teams and
fewer resources

Achieving
success with
tighter timelines

Fundraising
while prioritizing
clinical objectives

Accomplishing
multiple goals
in parallel

Finding the right CRO partner who can understand and help you overcome these challenges is critical to success.

Flexibility and Personal Attention Meet Global Reach and Experience

PPD BIOTECH OFFERS YOU A TRULY UNIQUE SOLUTION

Fully dedicated resources

PPD Biotech is a full-service Phase I-IV CRO devoted to biotech and small pharma clients. Operating as a company within a company, we offer 100-percent dedicated resources across clinical operations, medical operations and a full set of support functions.

A strong culture of flexibility

A vast suite of global resources

Our 350 fully dedicated team members deploy their intimate knowledge of the biotech environment to build transparent and efficient relationships. With limited reporting layers, PPD Biotech team members are able to rapidly access executives to elevate and appropriately prioritize your needs.

A Distinct Advantage

We have extensive experience serving biotech companies, with 400 studies conducted for 200 biotech clients in the past five years. We provide you with distinct advantages not available at other CROs including:

A fully dedicated team that prioritizes biotech clients while leveraging global reach and experience

Deep relationships with venture capitalists and other funding agents

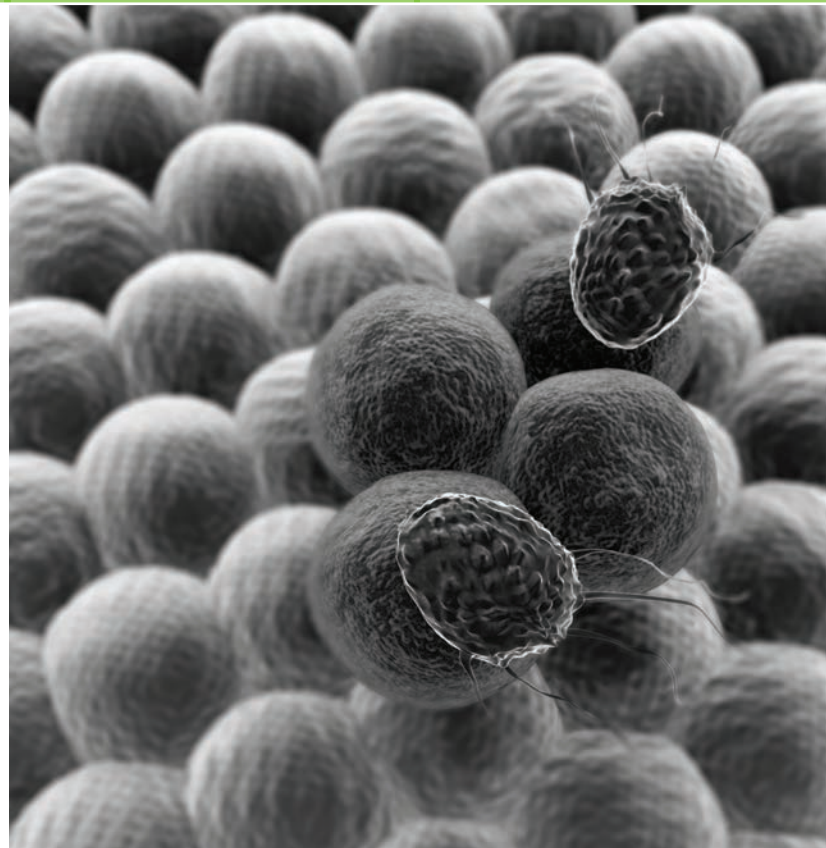

Dedicated medical experts to help fill expertise and resource gaps

Creative commercial constructs and payment terms to balance financial needs

MULTIDISCIPLINARY THERAPEUTIC EXPERTISE

We've collaborated with biotech and small pharma to bring treatments to patients across all key areas and indications.

Never Lack the Resources and Capabilities You Need

FAR-REACHING GLOBAL FOOTPRINT

**We can execute
any trial anywhere
in the world
across all
therapeutic areas**

While the size and focus of PPD Biotech allows for a unique nimbleness, we also have the resources of an 18,500-person strong organization at our fingertips. We offer:

- Full-service early-phase through post-approval clinical drug development
- Comprehensive laboratories support
- Extensive global patient networks
- Product development consulting
- Funding support

PPD Biotech combines the global power and capabilities of PPD with the personal attention, flexibility and extensive knowledge of biotech operations you could previously only find at niche CROs. We stand ready to partner with you to drive your innovative therapies forward.
