

# PHARMATRANS SANAQ AG

"Guarantee the quality of your medicines with our pharmaceutical excipients"

Pharmatrans SANAQ AG founded in 1982 is a full-service provider for the pharmaceutical industry, specializing in pharmaceutical excipients for solid dosage forms. We collaborate with science to develop added value excipients and provide customer solutions for packaging, storage, and distribution. As a sourcing partner for excipients and APIs, we also offer support in formulation and problem solving.

Pharma - **Pharmaceutical**

Trans - **Transformation**

SANAQ - **Security Analytics Quality**

## **COMPANY PHILOSOPHY**

Our mission is to enhance lives through safe, effective, and reliable pharmaceutical excipients. We believe in close collaboration with our customers and a continuous commitment to research and innovation to ensure that our excipients meet the highest quality standards. We are proud of our contribution to the healthcare industry and pledge to operate with integrity, transparency, and responsibility
