# PARTNERSHIP

## Partnership Models with Pluvia Consumer Health

### 1- Joint Venture

This model is one of the most powerful tools for being successful in today's competitive business atmosphere. Even the joint venture can create a separate business entity, to which the owners contribute assets, have equity, and agree on how this entity may be managed. The new entity may be a corporation, limited liability company, or partnership. Main advantages of this model is capturing an eye-catching market share along with income through leveraging the market by using abilities & relationships of the host company from the first entrance stage with the lowest risk & cost.

### 2- Strategic Alliance

Setting up a formal relationship & cooperation between two parties to meet a critical business need & make a synergy with maintaining both parties' independency. Each partner hopes that the benefits from the alliance will be greater than those from individual efforts. Main characteristics:

- High level of transparency between partners
- Common long-term strategy and goals
- Pooling/sharing ideas
- Increased business opportunities and reach

## 3- Franchise & licensing

### **1- License-In**

Under license manufacturing of specific drugs' dossiers with the aim of own portfolio enhancement.

### **2- License-Out**

We are working to expand our global strategic marketing partnerships for products developed-in house. In this regard, we are ready to grant our Know-How, Experts & Expertise.

## 4- Distribution Agreement

Mutual Co-operation in regard with Sales & Distribution of parties' products in order to market expansion.

We are ready to make a distribution contract with well-known international companies with an interesting & valuable portfolio. Vice-versa, we are looking for a strong international distributor or wholesaler who is authorized for working on our products.

## 5- Contract Manufacturing

When you choose us for Contract Manufacturing, you get so much more than a typical CMO engagement. Through the partnership, you gain integrated access to scientific expertise, High quality & unrivaled rates.
