## about us

PRECISE Group is an emerging global player in several areas of pharmaceutical manufacturing and healthcare business. The Group was established in 1997 and now with an annual turnover of 40 million USD is among the respected pharmaceutical companies in India for manufacturing of Active Pharmaceutical Ingredients (API), Pellets and Finished Pharmaceutical Formulations.

Based in Mumbai, the Group's strength lies in providing its customers with end-to-end solution to their various pharmaceutical product needs. It started with Bulk Drug manufacturing and then diversified into Drug Pellets and Formulations.

The Group is slowly making its presence felt in the competitive healthcare market with its fair business practices, consistent customer services and quality of medical products. It is poised to become a leading Pharmaceutical Manufacturer in India and Internationally.

The Group now exports to almost 30 countries and it is also an approved API supplier to manufacturers like ABBOTT, SUN PHARMA, TEVA, RANBAXY, Dr. REDDY's, PLIVA and several other key pharma players in the markets around the world.

## **P2P BUSINESS**

We offer P2P and contract manufacturing services for many new products for which we have DCGI approvals. PRECISE has always focused on high value niche products. With challenging technological breakthroughs, it has won itself demanding customers, who trust the group for its transparent business practices, stringent quality control and a high level of customer service.

# regulatory support

Regulatory affairs in PRECISE GROUP is a crucial link between the company, its products and regulatory authorities in international as well as domestic markets.

Typical activities by our regulatory team include:

- Keeping abreast of domestic & international legislation, guidelines and practices;
- Monitoring and setting timelines for registrations submissions, variations and renewal approvals in India and Export markets;
- Planning, developing and interpreting product clinical trial & Bioequivalence studies;
- Undertaking and managing regulatory inspections;
- Liaising with, and making presentations to, regulatory authorities domestic and internationally;
- Negotiating with regulatory authorities for marketing authorisation.

# manufacturing infrastructure

To meet the ever-growing demand from its valued customers, the Group has commissioned a new state-of-the-art manufacturing facility at Nashik, Maharashtra in 2012.

This unit is a WHO-GMP Licensed Manufacturing facility for Drug Pellets, Solid Dosage and External Preparation.

A new ultra modern API and Intermediates manufacturing unit is under construction and likely to be commissioned shortly.

#### Range Of Finished Dosage Formulations:

- Tablets
- Capsules (including Soft-Gel)
- Liquid injections
- Dry powder injections (including Lyophilized)
- Suspensions
- Liquid Oral / Dry Syrups

The group also has 2 API manufacturing units in and around Navi-Mumbai.

## INFRASTRUCTURE

# ecoconcern

Environmental conservation is part of PRECISE Group's values and therefore an essential component of our guiding principle. It is also a key factor in our efforts to design ecofriendly manufacturing processes and targeting conservation of natural resources.

Our objective is to minimize the environmental impact of our operations and activity by reducing the damage to nature.

Some initiatives under taken by the Group toward this objective are:

- 1) Extensive tree plantation in and around the manufacturing locations.
- 2) Use of Biomass Briquettes in boiler and heating applications. Biomass Briquettes are Green Boiler fuels manufactured from waste biomass like sawdust, agriculture wastes etc.
- 3) Putting up bird houses around the manufacturing locations for sparrows and other small birds displaced due to felling of trees and urbanization.
- 4) Avoid use of plastic and other non biodegradable material in packing and packaging.
