Renejix

Pharma Solutions

December 2023

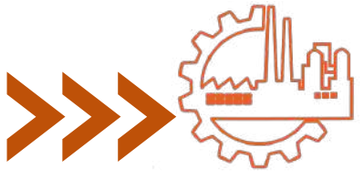
Vertically Integrated Network

	Small Molecule APIs	R&D & Analytical Suite	Finished Dosage Facilities (USA)	Packaging Sources	Distribution & Market Access Centers
Key Highlights	• Manufacturing, process development, scale-up and optimization of novel APIs • Solid State Characterization and API assessment • Alternative Partners available in USA	• GLP labs • R&D support for NMEs (New Molecular Entities) and Analytical Method Development.	• 5+ Billion Doses Manufactured/year • 200+ Finished Dosage Formulations • Ability to manufacture across all scales (Phase I-IV and Commercial)	• Dedicated site for manufacturing and supply of bottling, caps, and jars • Dedicated site for pharmaceutical packaging • Specalized marketing and label design services	• Specialized containment suites • Network of 20+ depots globally • Complete team of 200+ to provide support for market access
Facilities	 Hyderabad, Telangana, India 500,000 sq feet	 Hyderabad, Telangana, India 15,000 sq feet	 Hauppauge, NY, USA 180,000 sq feet	 Central Islip, NY 300,000 sq feet	 Central Islip, NY Windsor, NJ	 NJ, NY, TN 350,000 sq feet 20+ Clinical Depots Located Globally

CDMO Services

CPO Services

Support Services



Service offering goods

Development

- Formulation & Drug Development
- Sourcing
- Scale up
- Tech Transfer
- Process Analytics Development

API production

- Extraction
- Synthesis
- Fermentation: Small Molecules
- Other methods

Formulation

- Solids
- Semi-solid
- Non-sterile liquids

Packaging

- Primary packaging (e.g., bottle)
- Secondary packaging (e.g., box, carton)
- Tertiary packaging (e.g., barrel, container)
- Marketing & Label Design Services

Included

- Distribution 20+ Depots
- Market Access and Pricing Agreement with Government Agencies
- Regulatory Filing & Support (IND, ANDA, NDA`, MAA)
- Portfolio and Post-Life Cycle Management

Scale

- Small-scale production (preclinical - phase IV)
- Large-scale production (phase III, phase IV, commercial)

What We Provide Solutions For?

- ✓ Early-Stage Drug Development
- ✓ Clinical Supply (Preclinical– Phase III)
- ✓ Commercial Manufacturing
- ✓ Dispensing for patients
- ✓ Generics/OTC
- ✓ Oral Solid Dose
- ✓ Oral Solutions & Suspensions
- ✓ Softgels
- ✓ Topicals
- ✓ Contract Manufacturing
- ✓ Packaging/Labeling
- ✓ Regulatory Support & Services
- ✓ PK/PD Modeling

- ✓ Taste Masking
- ✓ Bioavailability Enhancement Technologies
- ✓ Solubility Enhancement
- ✓ Customized Release
- ✓ Pediatric Formulations
- ✓ Poor Acceptability
- ✓ Dysphagic proof design
- ✓ Dosing Flexibilities
- ✓ Chemical Incompatibilities
- ✓ Orally Disintegrating
- ✓ Dosing Convenience
- ✓ Controlled Substances
- ✓ Abuse Deterrence Testing
- ✓ Oral Disintegration
- ✓ Customized Release
- ✓ Controlled Release
- ✓ Patient Centric Dosage Design

Our Specialized Technologies

Why Renejix?

Key benefits of the integrated Early to Late offer

Enhanced speed

Proactive assessment and transfer allows for paralleled work

Knowledge Transfer

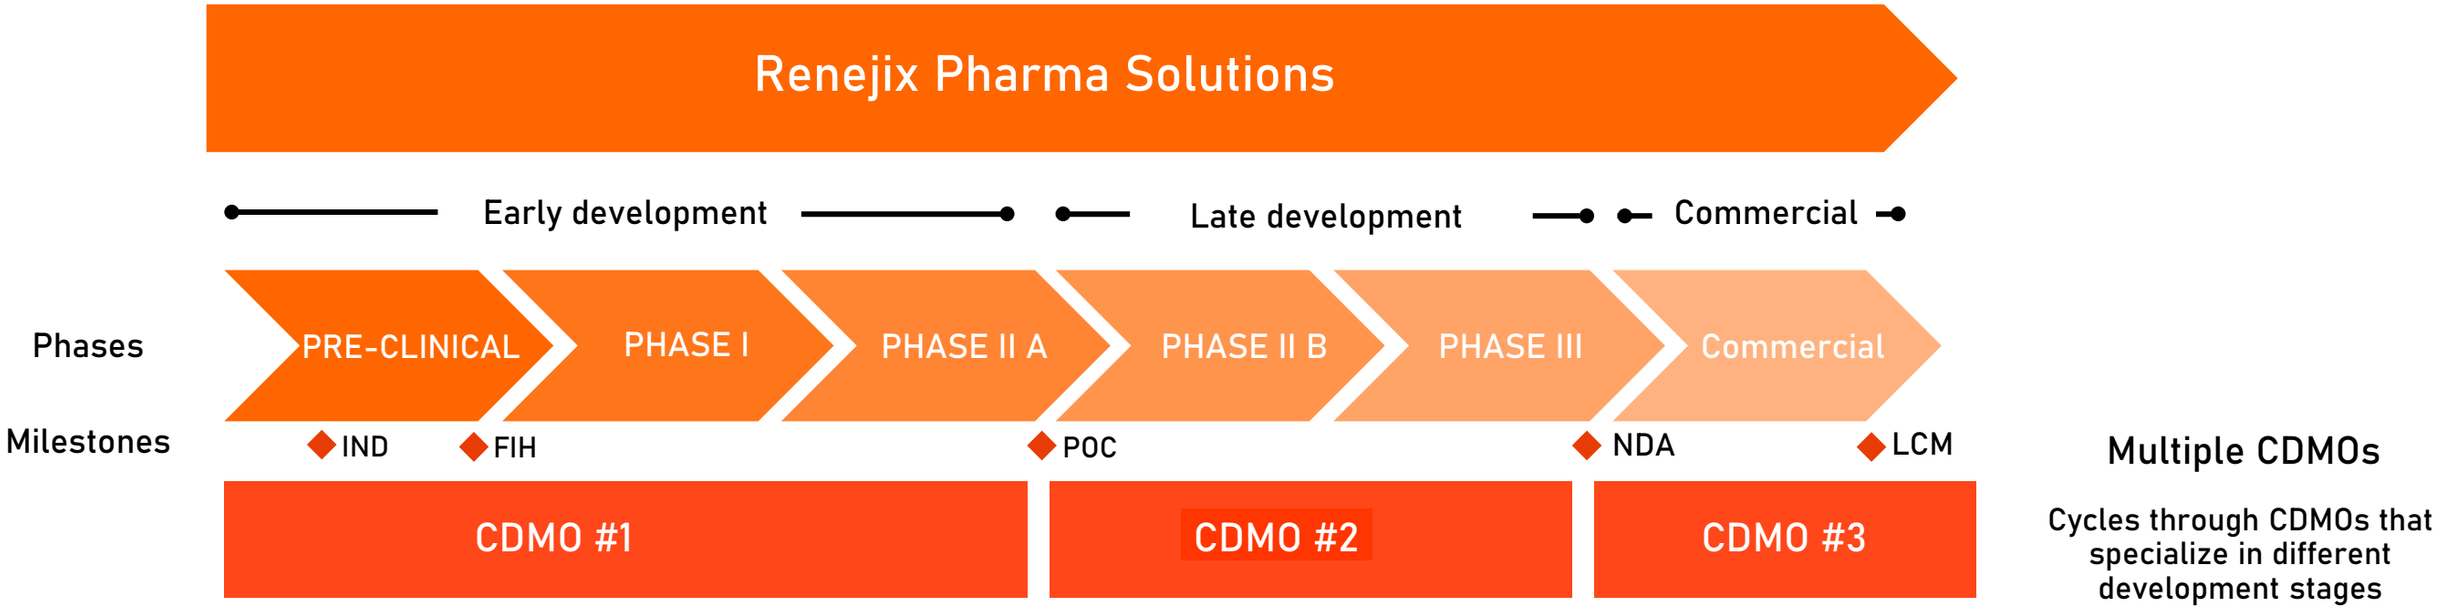
Avoided rework due to aligned systems and data sharing

Reduced Staff Time

Through working with one partner point of contact that cordinates across phases

Cost Savings ~47%

Stay with one CDMO partner that has capabilities to support development from early to late stages



Multiple CDMOs

Cycles through CDMOs that specialize in different development stages

Meet our Experienced Team

Team of experts with 20-30+ years experience in oral dosage development and commercialization

Integrated Business Development and Organizational Structure focused on quality and time to market

Strategic Group Leadership

Madhava Reddy CEO & President

Global Pharma

Business Leadership & Operational Team

Vineeth Reddy
Director – Business Development

Hauppauge, NY
Central Islip, NY
