

PACKAGING SOLUTIONS – AS FLEXIBLE AS YOUR NEEDS

FROM **A TO Z** OR WHATEVER YOU LIKE

THE SPECIALISTS AT ROMMELAG FLEX HAVE BROUGHT THOUSANDS OF PROJECTS TO LIFE AND HAVE DEVELOPED TAILORED PACKAGING SOLUTIONS USING PLASTIC FILM, DRAWING ON A VAST ARRAY OF POUCHES, SLEEVES, SACKS, AND CARRIER BAGS, AS WELL AS FOOD, SHRINK-WRAP, AND SPECIAL FILMS MADE OF POLYETHYLENE, POLYPROPYLENE, AND PLASTIC COMPOSITES, NOT TO MENTION SPECIAL APPLICATIONS FOR SOPHISTICATED CONTAINMENT SOLUTIONS IN THE PHARMACEUTICAL INDUSTRY.

Are you looking for a flexible packaging solution that not only lives up to all of your expectations but also meets all legal requirements? Then Rommelag FLEX is just what you need. For more information on our specialist solutions for the pharmaceutical industry, visit www.rommelag.com or take a look at our brochure on flexible containment technologies.

EXCEPTIONAL ADVICE

Rommelag FLEX provides customers all over the world with first-class film packaging solutions for all possible – and seemingly impossible – applications. To ensure that our film types do exactly what you want them to, we at Rommelag don't do anything without an in-depth, personal consultation about your specific needs. We dedicate time to you and together we determine which packaging solution is just the right one for your needs.

THOROUGHLY THOUGHT THROUGH

Watertight, tearproof, food-safe, with vapor permeability, UV protection, and so on: film must be suitable for a variety of tasks, and – more often than not – capable of performing more than one task at a time. We produce top-class LDPE film types for hygiene packaging, food packaging, and industrial applications. Our diverse fleet of machines puts us in an excellent position to meet all of your requirements – whether you're looking for narrow tubes or a wide printing substrate.

Can't find the packaging solution you're looking for in our standard range? Rommelag FLEX develops, tests, and manufactures the exact film you need that not only meets all your requirements, but also looks pretty good, too.

IMPRESSIVELY EXPRESSIVE

In today's busy market place, attractive packaging is an integral part of successful marketing. After all, the look and surface feel have to be just right if your product is to survive against the competition. We can print for you using multicolored raster flexographic printing, which guarantees perfect product presentation in terms of both look and intensity. What's more, we also deliver unwaveringly high quality thanks to our seamless quality control.

ROMMELAG FILMS AND POUCHES: OUTSTANDING QUALITY

The Rommelag range includes films and pouches for virtually every application: flat film, center-folded film, sleeve film, automatic packaging film, bottom gusset bags, bottom seam bags, easy-opening bags, embossed film, hot-perforated bags, multi-chamber bags, CoEx bags, cross-bottom bags, micro-perforated bags with stack perforation, micro-perforated bags with closure, and side gusset bags.

Rommelag FLEX – Safe for your industry, too

Speak to the experts at Rommelag FLEX about all of your individual needs for food and hygiene packaging. We cater for a whole host of industries, including automotive, construction, chemical, leisure, pharmaceutical, beverage filling, medical technology, non-food, cleaning, paper manufacturing, and much more besides. Whether you're looking for a bespoke solution or a product from our standard range, Rommelag FLEX is sure to have exactly what you need. We'll even be happy to come up with something entirely new – just for you.

AIM: YOUR TOTAL
SATISFACTION

We like to make a real impression. Flexography
in up to eight colors, to be precise.

COST-EFFECTIVE PRODUCTION

We manufacture our dyed, transparent, printed, and embossed film types in line with your exact wishes and requirements. Our specialists give

these customized, flexible, quality packaging solutions just the right finish, and monitor and check them all along the processing line.

NATURALLY SUSTAINABLE

It goes without saying that working responsibly with natural resources is just as important to us as avoiding unnecessary emissions. We are always on the lookout for ways to improve our processes and minimize the use of natural raw materials and energies. Films, pouches, sacks, and bags – virtually all of our products are fully recyclable and

can be used to create regranulate as part of the film production process. The same also applies, of course, to all production waste. And to underline our commitment to sustainability further still, our energy management processes are even certified in line with ISO 50001.

CERTIFIED QUALITY

To ensure we are always able to offer consistently high standards to our customers, we work in accordance with the quality management standards detailed in ISO 9001:2008. What's

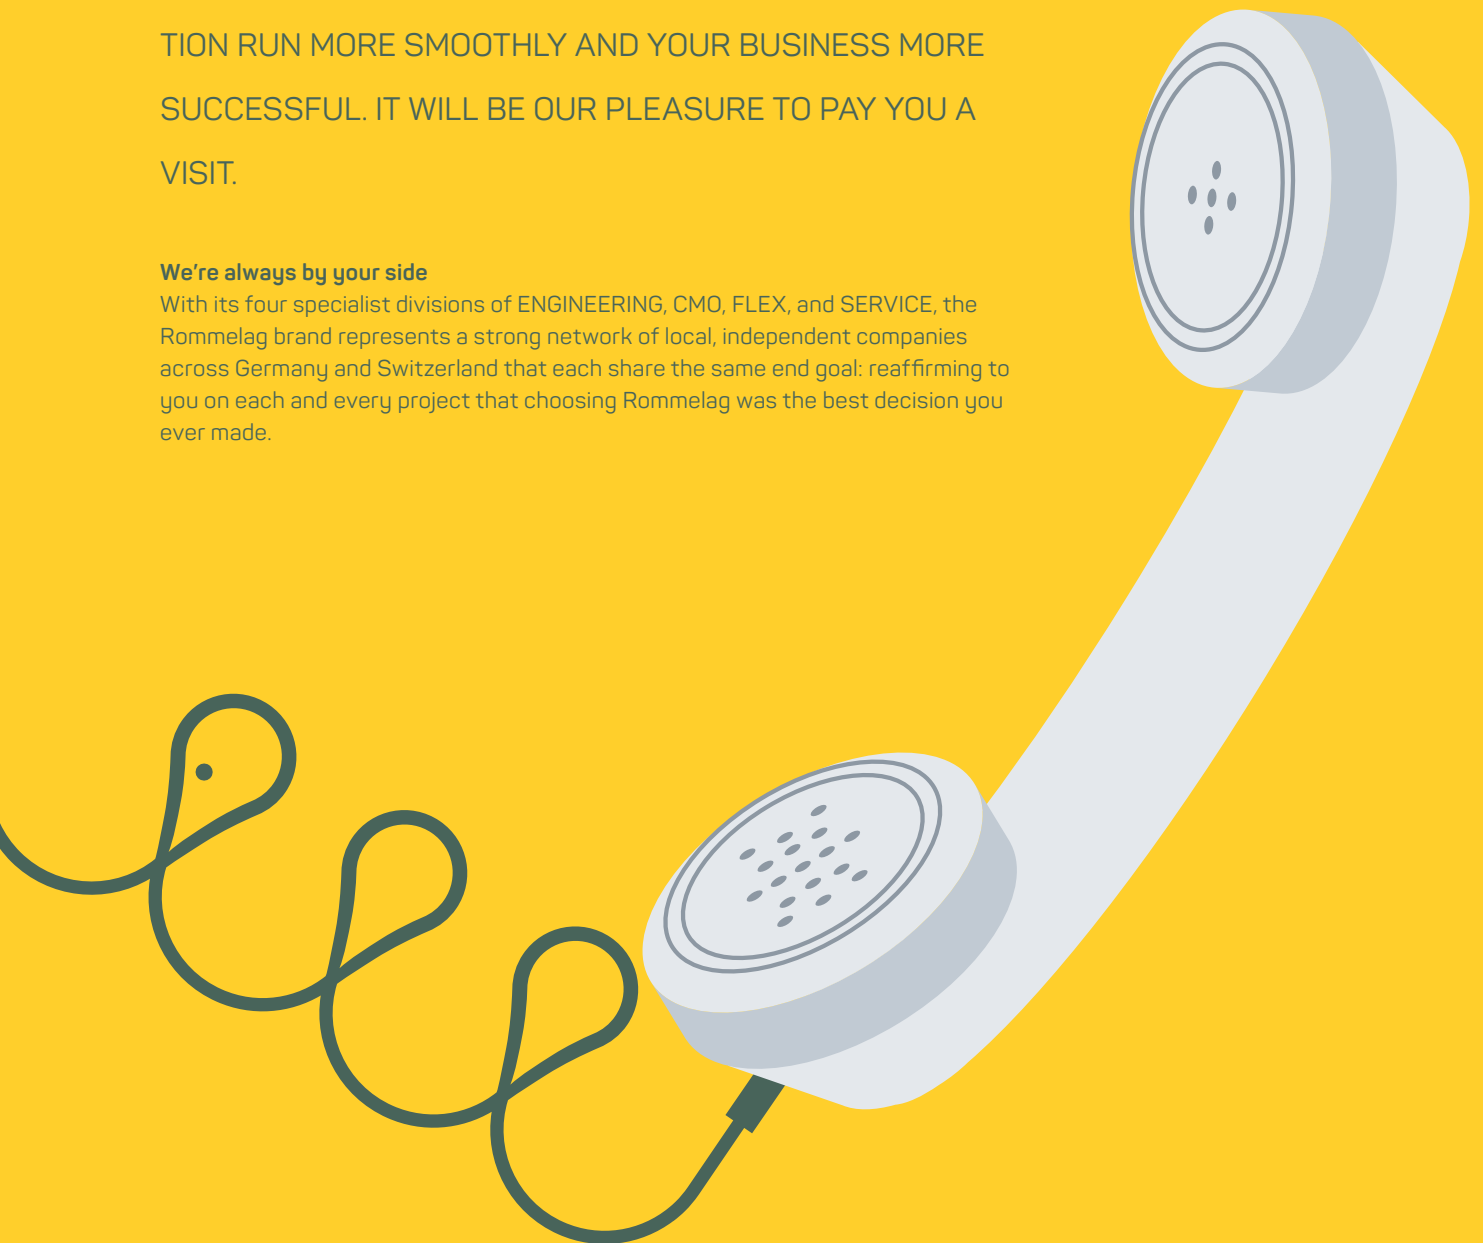

more, we are also certified by the British Retail Consortium (BRC), which highlights our compliance with food-safety standards throughout the entire manufacturing process.

THE END? OR JUST THE BEGINNING?

WE WILL BE GLAD TO SPEAK TO YOU IN PERSON TO DISCUSS THE FLEXIBLE PACKAGING SOLUTIONS FROM ROMMELAG FLEX. CONTACT US VIA WWW.ROMMELAG.COM AND WE'LL BE GLAD TO DISCUSS THE VARIOUS PACKAGING SOLUTIONS WE CAN OFFER TO MAKE YOUR APPLICATION RUN MORE SMOOTHLY AND YOUR BUSINESS MORE SUCCESSFUL.
