About us

Shouyuan chemical (one of the leading chemicals supplier in China) specializes in manufacturing, supplying, and custom synthesis latest chemicals. Our products cover all kinds of range like pharmaceuticals, agrochemicals, electronic chemicals, surfactants and other specialty chemicals. Besides this, we also provide some other services like:

- Custom manufacturing for multi-step synthetic products .
- Process research, development, scale-up and optimization.
- Development, promotion and marketing advanced chemical technologies.
- Chemical outsourcing solutions.

Achieve these levels of professional services depends on many factors:

1. Honest and open business relationships with our customers.
2. Qualified staff liaising on a one-on-one basis with our customers' technical personnel.
3. Offering extensive expertise in handling hazardous and non-hazardous chemicals.
4. the unique corporate culture- efficient communication, quick decision-making, give our staff the opportunity for personal growth and development.
