

## ABOUT US

### GLOBAL VISION. LOCAL APPROACH.

**Substipharm** is a full service pharmaceutical generics development company, with a **global pharmaceutical portfolio** of more than 30 marketed products in 40 countries.

We invest in our own developments, providing the generic industry with a complete range of dossiers and finished dosage forms through our full service contracts.

We offer our clients a trusted, credible supplier and have a successful portfolio of medicines and dossiers including:

- pharmaceutical generics
- over the counter (OTC) pharmaceutical products
- difficult to develop medicines
- value added products.

Among our extensive client portfolio, more than 15 of the leading international pharmaceutical companies have been relying on our expertise in difficult formulations, integrated solutions and technological know-how for over 15 years.

Our fresh thinking and best practice allows us to deliver a service that is proactive, flexible and fast to execute, differentiating with superior quality, niche pharmaceutical products.
