

**PRESENTATION**

## **Introduction:**

Takdasht Co. has been founded in 1996 as a scientific based company for trading pharmaceutical, cosmetic and food industries raw materials. The company's main area of activities are including excipients, APIs, vitamins and amino acids as well as herbal extracts and essential oils.

The related in-depth technical supports, technical services and formulations has been recently transferred to our other company named Amo Pharmed Aria (private sector company) where a production unit also has been planned to be established in near future.

Progressed from a small office the company is currently operating in a private estate office of 300 m<sup>2</sup> and having a warehouse audited and certified by Iranian Ministry Of Health (MOH) and also an in-house laboratory. A total of 20 expert employees are working together in the company who are mostly holding PhD and master degree.

Our company's annual turnover has been exceeded to 6 million USA dollars in the last fiscal year.

Years of activity with truthfulness and following codes of ethics in such vital sectors and success in coming up with well working solutions for pharmaceutical industry of Iran, have promoted our company as one of the major sources of raw materials in the related industries in Iran. Combination of proven business strategies and supporting the clients with solid technical services resulted in a very good fame as a trustworthy company for Takdasht Co. in the both market and Ministry Of Health.

Currently we are representing different Chinese and Indian companies and few European companies in Iran based on the exclusive representativeness policy. We have registered their products in the Iranian “Ministry Of Health” (MOH) in the shortest possible time and with proper marketing methods we have penetrated their products in different sections of the market.

We are offering quality warranty to our customers for our products and also providing related technical supports to our customers in case of need.

Takdasht Co. is working with its suppliers with the crystal clear relation and information share to always maintain the win-win situation with them. Our marketing and sales teams will support the mutual market with valuable information about the market condition and the connected statistics.

Having very good relations with MOH and because of years of “clean” operation we always keep a brilliant profile of our partners in the MOH to insure the supply chain remains secure and smooth.

### **Turnover & Products Share:**

Takdasht Co. is currently having a 6 million USD (240 billion Iranian Rial) turnover per year. The share of each product group of the company is as follows:
