

PHARMACEUTICAL CONTRACT MANUFACTURING OPERATIONS (CMO)

ZAMBON S.p.A. is a multinational pharmaceutical company that focuses on innovation and development with the aim to improve the quality of people's health and patients' lives.

Based on a valuable heritage but strongly focused on the future, its goal is to improve people's health through the development of innovative and quality medicines.

ZAMBON AS A CMO

Our pharmaceutical contract manufacturing operations rotate around four plants: **Italy, Switzerland, China and Brazil** having an extensive experience as a CMO and manufacturing for several large pharmaceutical companies.

The plants offer products and services with high added value, based on excellence of innovation and perfect execution.

As a CMO we offer **flexibility, knowledge, high expertise on local regulations** and customs (e.g. China, Russia, Brazil), all ancillary services linked to manufacturing (stability studies, primary and secondary packaging, validation activities).

Two manufacturing and technology laboratories are available to optimize and troubleshoot activities for oral solid and lyophilized production. Zambon has been working on an **investment plan (2020-2024) of 120 mio€** in the upgrade of equipment and technologies within the pharmaceutical plants.

THE ITALIAN PLANT (Vicenza)

The Italian plant has a solid expertise in sterile production with terminal sterilization and aseptic filling process. It also boasts a solid expertise in the manufacturing of oral solids and no sterile liquids dosage forms. The site, equipped with 10 packaging lines, is able to pack all these specialties.

It is approved by AIFA (Italian authority), ANVISA (Brazilian authority) and FDA approval process is ongoing.

THE CHINESE PLANT (Haikou)

The Chinese plant opened in 2000 and quickly became a strategic asset that would help guarantee the anticipated growth of the Group's Chinese business for the next years.

The Haikou facility focuses its efforts on production lines for granulated products and tablets.
