| 1  | (Russian) Alboregin injection solution 40 mg/ml, 5 ml, No. 5                              | (Russian) 20000                      | (Russian) Actovegin                                                                    | (Russian) Deproteinized extract, Calf blood, Polysorbate.                                                                                    |
| 2  | (Russian) Analgin injection solution 50%-2ml, No. 10                                      | (Russian) 10000                      | (Russian) Metamizole sodium                                                            | (Russian) Metamizole sodium water d/i                                                                                                        |
| 3  | (Russian) Ascorbic acid injection solution 5%-2ml, No. 10                                 | (Russian) 10000                      | (Russian) Ascorbic acid                                                                | (Russian) Ascorbic acid, sodium bicarbonate, sodium sulfite, water for                                                                       |
| 4  | (Russian) L-Aspagine injection solution 10ml, No. 10                                      | (Russian) 4500                       | (Russian) Magnesium aspartate, potassium aspartate                                     | (Russian) Magnesium aspartate, potassium aspartate, D,L-aspartic acid, magnesium oxide, potassium hydroxide, sorbitol, water d/i             |
| 5  | (Russian) Ambroxol solution for injection 15mg/2ml No. 10                                 | (Russian) 10000                      | (Russian) Ambroxol                                                                     | (Russian) Ambroxol hydrochloride, citric acid, sodium chloride, sodium phosphate heptahydrate, water for                                     |
| 6  | (Russian) Baralgin injection solution 5ml, No. 5                                          | (Russian) 20000                      | (Russian) Metamizole Sodium (Analgin), pitofenone hydrochloride, fempiverinium bromide | (Russian) Metamizole Sodium (Analgin), pitofenone hydrochloride, fempiverinium bromide, hydrochloric acid solution, water d/i                |
| 7  | (Russian) Vitamin B complex injection solution 2ml, No. 10                                | (Russian) 10000                      | (Russian) Vitamin B complex                                                            | (Russian) Riboflavin sodium phosphate, Thiamine hydrochloride, Pyridoxine hydrochloride, Nicotinamide, Calcium pantothenate, EDTA, water d/i |
| 8  | (Russian) Gepaprotek concentrate for the preparation of solution for infusion 10ml No. 10 | (Russian) 2250                       | (Russian) L-ornithine-L aspartate                                                      | (Russian) L-ornithine-L aspartate, water d/i                                                                                                 |
| 9  | (Russian) Heparin solution for injection 5000IU/ml, No. 5                                 | (Russian) 20000                      | (Russian) Heparin sodium                                                               | (Russian) Sodium heparin, benzyl alcohol, sodium chloride, water d/i                                                                         |
| 10 | (Russian) Glucose injection solution 40%-10ml, No. 10                                     | (Russian) 4500                       | (Russian) Glucose                                                                      | (Russian) Glucose, hydrochloric acid solution 0.1 mod/l, Sodium chloride, water d/i                                                          |
| 11 | (Russian) Glucose injection solution 40%-5ml, No. 10                                      | (Russian) 4500                       | (Russian) Glucose                                                                      | (Russian) Glucose, hydrochloric acid solution 0.1 mod/l, Sodium chloride, water d/i                                                          |
| 12 | (Russian) Drotaverine injection solution 40mg/2ml, No. 25                                 | (Russian) 2400                       | (Russian) Drotaverine hydrochloride                                                    | (Russian) Drotaverine hydrochloride, sodium metabisulfite, ethyl alcohol 96%, water for                                                      |
| 13 | (Russian) Diclofenac solution for injection 75mg/3ml, No. 5                               | (Russian) 18000                      | (Russian) Diclofenac sodium                                                            | (Russian) Diclofenac sodium, Benzyl alcohol, Propylene glycol, Manitol, Sodium metabisulfite, Sodium hydroxide, water d/i                    |
| 14 | (Russian) Dexamethasone solution for injection 0.4%-1ml, No. 5                            | (Russian) 20000                      | (Russian) Dexamethasone sodium phosphate                                               | (Russian) Dexamethasone sodium phosphate, Glycerin, Sodium phosphate disubstituted 2-water, Trilon B, water d/i                              |
| 15 | (Russian) Dexamethasone injection solution 0.4%-2ml, No. 5                                | (Russian) 20000                      | (Russian) Dexamethasone sodium phosphate                                               | (Russian) Dexamethasone sodium phosphate, Glycerin, Sodium phosphate disubstituted 2-water, Trilon B, water d/i                              |
| 16 | (Russian) Decenon solution for injection 250mg/2ml No.                                    | (Russian) 2400                       | (Russian) Etamzilat                                                                    | (Russian) Sodium ethamsylate disulfite, d/i water, sodium bicarbonate                                                                        |

|    |                                                                      |                 |                                                              |                                                                                                                                              |
|----|----------------------------------------------------------------------|-----------------|--------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| 17 | (Russian) Diabertion 3% 10ml No. 5                                   | (Russian) 10000 | (Russian) Meglumine salt of $\alpha$ -lipoic acid            | (Russian) Meglumine salt of $\alpha$ -lipoic acid, Meglumine, polyethylene glycol 300, water for                                             |
| 18 | (Russian) Diphenhydramine 1% 1ml No. 10                              | (Russian) 10000 | (Russian) Diphenhydramine hydrochloride                      | (Russian) Diphenhydramine (diphenhydramine hydrochloride) water d/i                                                                          |
| 19 | (Russian) Dexalan 5% 2ml No. 5                                       | (Russian) 10000 | (Russian) Dexketoprofen trometamol                           | (Russian) Dexketoprofen trometamol, ethanol 96%, sodium chloride, sodium hydroxide, water d/i                                                |
| 20 | (Russian) Ketomax injection solution 100mg/2ml, No. 10               | (Russian) 10000 | (Russian) Ketoprofen                                         | (Russian) Ketoprofen, Propylene glycol, Ethyl alcohol 96%, Benzyl alcohol, Sodium hydroxide, water for                                       |
| 21 | (Russian) Potassium chlorine solution for injection 4%-10ml, No. 10  | (Russian) 4500  | (Russian) Potassium chloride                                 | (Russian) Potassium chloride, Dextrose, water for                                                                                            |
| 22 | (Russian) Ketorong 30mg/ml, 1ml No. 10                               | (Russian) 10000 | (Russian) Ketorolac tromethamine                             | (Russian) Ketorolac tromethamine, octoxynol-9, disodium edetate, sodium chloride, ethanol 96%, propylene glycol, sodium hydroxide, water d/i |
| 23 | (Russian) Caventox injection solution 10mg/2ml, No. 10               | (Russian) 10000 | (Russian) Vinpocetine                                        | (Russian) Vinpocetine, Ascorbic Acid, Tartaric Acid, Benzyl Alcohol, Sodium Metabisulfite, Sorbitol                                          |
| 24 | (Russian) Lidocaine g-d solution for injection 2%-2ml, No. 10        | (Russian) 10000 | (Russian) Lidocaine hydrochloride                            | (Russian) Lidocaine hydrochloride, sodium chloride, sodium hydroxide solution 1mol/l                                                         |
| 25 | (Russian) L-Lises 0.1% 5ml No. 10                                    | (Russian) 10000 | (Russian) L-lysine escinate                                  | (Russian) L-lysine escinate ethanol 96%, propylene glycol, water for injection                                                               |
| 26 | (Russian) Milonard solution for injection 10%, 5ml, No. 10           | (Russian) 10000 | (Russian) Meldonium dihydrate                                | (Russian) Meldonium dihydrate, water d/i                                                                                                     |
| 27 | (Russian) Meloxicam solution for injection 15mg/1.5ml, No. 5         | (Russian) 20000 | (Russian) Meloxicam                                          | (Russian) Meloxicam, ethanol 96%, poloxamer 188, sodium chloride, glycine, meglumine, sodium hydroxide, water d/i                            |
| 28 | (Russian) Magnesium sulfate solution for injection 25%-5ml, No. 10   | (Russian) 4500  | (Russian) Magnesium sulfate                                  | (Russian) Magnesium sulfate, water d/i                                                                                                       |
| 29 | (Russian) Magnesium sulfate solution for injection 25%-10ml, No. 10  | (Russian) 4500  | (Russian) Magnesium sulfate                                  | (Russian) Magnesium sulfate, water d/i                                                                                                       |
