

Cocamidopropyl hydroxysultaine

Cocamidopropyl hydroxysultaine

n = 6, 8, 10, 12, 14, 16

Names

Other names

N,N-Dimethyl-*N*-(3-cocamidopropyl)-3-ammonio-2-hydroxypropylsulfonate

Identifiers

CAS Number 68139-30-0

EC Number 268-761-3

UNII 62V75NI93W

Except where otherwise noted, data are given for materials in their standard state (at 25 °C [77 °F], 100 kPa).

Cocamidopropyl hydroxysultaine (CAHS) is a synthetic amphoteric surfactant from the hydroxysultaine group. It is found in personal care products (soaps, shampoos, lotions etc.). It has uses as a foam booster, viscosity builder, and an antistatic agent.
